524. 525

Dated 25 — 1 — 1867.

Not to be folded or roughly handled

Proceedings of the Madras Government, Revenue Department, 25th January 1867.

No. 524. Read the following Proceedings of the Board of Revenue, dated 21st January 1867.

Read the following letters :—

From the Collector of Tanjore, to the Secretary to the Board of Revenue, dated Vellum, Tanjore Talook, 16th January 1867, No. 17 :—

1. During the fortnight, ending the 15th January 1867, there has been no rain-fall in this district to speak of. The rivers have, moreover, almost entirely subsided, as might be expected at this time of the year.

2. The harvest of the Samba-poshanam crop, which is the staple produce of the district, has already commenced in some parts. The out-turn is expected to be abundant and above the average, which fact, added to the export of grain having much decreased of late, has caused a great fall in prices. In the Delta the new Car paddy is selling at Rupee 1-4-0 per kullum, and I think that a further fall may be anticipated when the harvest is over.

3. Cholera and fever still prevail in some parts of the district, but no diseases of any note exist among cattle. Pasture is at present sufficiently abundant.

Report on the state of the season in the District of Cuddapah, during the first fortnight in January 1867.

1. Scanty showers of rain fell in a few localities. Agricultural operations were still carried on in parts of the district.

2. The standing crops, with few exceptions, were in good condition.

3. Cholera and fever existed in several localities.

(Signed) T. WARD,
Deputy Collector.

CUDDAPAH,
