*Proceedings of the Madras Government, Public Works Department,
29th October 1867.*

No. 625. Read the following letter from the Acting Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 15th October 1867, No. 3,362:—

1. I have the honor to bring to notice that under the Orders of the 8th April last, No. 1,083, the new drains for the Perambore lines, are in progress, and the sewage is thus being conducted to a distance, to be removed thence by carts to one of the rubbish depôts.

2. In order to carry out fully these instructions, the covered main drain from the left wing lines has been partly constructed, and is being extended along the high road which bounds the property occupied as a Mess-house by the 41st Regiment Native Infantry. This drain must necessarily terminate at the Wotary nullah, a large drainage stream, and as the sewage is not allowed to fall into it, the contents of the drain must there be received in carts and removed away, in accordance with the scheme approved of by Government in the above order.

3. As the bank of the nullah is precipitous, it is necessary to encroach on a small corner of the compound to enable us to make a road to admit of carts reaching the extremity of the drain. The property belongs to Koorshood Oon nissa Begum Sahiba, a member of the late Nawab's family, and as the Deputy Collector could not see her he negotiated for the land through her Agent, who however states the owner will not give up the property. I enclose the Collector's endorsement on the Deputy Collector's letter dated the 9th instant, and a sketch showing the position of the land and drain.

4. It is true that there must be more or less nuisance from these drains, but the same nuisance would equally arise if the sewage discharged into the nullah. That the contents of the drains will have to discharge in this latter way during the monsoon I have no doubt, for no conservancy by means of carts will be effectual during the rains.

No. 626. ORDER THEREON, 29th October 1867, No. 3,353.

MILITARY WORKS, No. 48.

The Superintending Engineer of the 4th Division will furnish a memorandum of the extent and boundaries of the land in question, with a view to the issue of the usual Notification for its acquisition under Act VI of 1857.

(True Extract.)

Colonel, R. E.,

Secretary to Government.

To the Superintending Engineer, 4th Division.
