2. The Board have not yet replied to the Proceedings of Government in the Revenue Department of the 5th October last, No. 2,345, nor have they finally decided, in the case of some of the Districts of this Presidency, which of the minor maintenance grants for roads should be transferred from the Public Works to the Local Fund Budget. In disposing of these questions, the Government trust that, recognizing the urgent necessity which exists for providing larger assignments than usual for the completion of those new works under "Communications" which have been in progress for several years from the small appropriations that it has heretofore been possible to make from the annual Imperial allotments, the Board will take measures for relieving the Public Works Budget of all charges for the repair of roads which are not *in the strictest sense of an Imperial character.*
