*Proceedings of the Madras Government, Revenue Department,
19th November 1867.*

No. 328. Read the following Proceedings of the Board of Revenue, dated 31st October 1867, No. 7,089.

Read the following letter from the Collector of Tanjore, to the Secretary to the Board of Revenue, dated Vallam, 17th September 1867, No. 177 :—

1. I have the honor to submit, for the approval and sanction of the Board and Government, the accompanying plan and three estimates of Salt* works, noted in the margin, and numbered 80, 81, and 82 in Enclosure No. 2, "Petty Construction and Repair" to the Board's Proceedings, dated 27th February 1867, No. 1,206.

2. The estimates for these items exceed the approximate provision in the abovesaid list, and in the case of No. 81, the excess is a little more than four times as much as was anticipated. This increase is mainly due to the facings of the dams having to be provided with stone, instead of brick-in-chunam, as was originally intended. Regarding this work the Superintending Engineer states, "these dams or their wings should be faced with stone, for neither plaster nor the bricks themselves will last long when acted upon by salt-water."

3. The total excess of these estimates over the Budget provision, namely, Rupees 963, can be met by a reduction from the amount of Rupees 6,535, which in paragraph 2 of my letter, dated 9th August last, No. 155, I proposed to reimburse to Local Funds in payment of provision made therefrom for certain salt repairs in preceding years.

ENCLOSURES Nos. 1 to 3.—Estimates.

these works are entered; but the provision made for them amounts to Rupees 760 only; the excess Rupees 963 may, however, be provided by the Collector by the postponement of works of minor importance.
