*Proceedings of the Madras Government, Revenue Department,
28th November 1867.*

No. 536. Read the following letter from the Resident in Travancore and Cochin, to the Chief Secretary to Government, Fort St. George, dated Courtallum, 18th September 1867, No. 50:—

1. I have the honor to bring to the notice of His Excellency the Governor in Council that the Revenue Survey, now in progress in Tinnevely, affords an opportunity for facilitating the exchange of several outlying villages* of Travancore, in the midst of British territory,

Longitude $17^{\circ} 18'$ to $29'$.
Latitude about 9° and
Longitude $77^{\circ} 33'$.
Latitude $8^{\circ} 39'$.

for other lands contiguous to Travancore, so as to form a more convenient boundary, and to suggest that the Superintendent of Revenue Survey may be instructed to trace the boundaries of each of these villages, and approximately to lay down the extent of irrigated and dry land, cultivated and waste, instead of confining his operations, in the ordinary course, to the exterior boundary of the whole.

2. An approximate valuation by the Settlement Officer in each of these divisions in the lump, would afford an independent basis for the calculation of the revenue of this tract, and be valuable in checking the conclusions to be drawn from the amount of revenue at present realized.

3. I beg further to propose that the Survey Officers should trace the boundaries of the land in dispute between Travancore and Tinnevely towards the southern part of these districts.

No. 537. ORDER THEREON, 28th November 1867, No. 2,829.

Miscellaneous.

1. The Superintendent of Revenue Survey will place himself in communication with the Resident in Travancore and Cochin, and take such steps as may be necessary to carry out the proposals in the above letter, for defining the boundaries and ascertaining the areas of the outlying villages and disputed tract in question.

2. The Collector of Tinnevely, who is conducting the Settlement operations of his district, will in due course arrange for the approximate valuation of the villages in question in the manner proposed by Mr. Newill.
