Proceedings of the Madras Government, Public Works Department.
29th November 1867.

No. 687. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Camp at Dowlaishweram, 11th November 1867, No. 182:—

2 Plans.
1 Estimate

I have the honor to forward an estimate amounting to Rupees 5,000, for enlarging eight miles of the Biccavole

drain, this work is necessary in consequence of the Tooliah Bhagah, originally the main drain of the eastern Delta, having been straightened, embanked, and made the Cocanada canal. The advantages of putting the Biccavole drain into a thoroughly efficient state will be, that much land lying between the Samulcottah and Cocanada canals now flooded, will be drained and cultivated, and that much flood-water that now enters the Cocanada canal, damaging its banks and endangering the stability of escape-weirs, will be led by another route to tide-water.

No. 688. ORDER THEREON, 29th November 1867, No. 3,726.

IRRIGATION, No. 39.

Under the explanation afforded by the Superintending Engineer of the 1st Division, His Excellency the Governor in Council sanctions the estimate amounting to Rupees 5,000 for enlarging eight miles of the Biccavole drain in the Godavery District. The work may be proceeded with if the Superintending Engineer can provide the amount required; otherwise a grant will be made at the commencement of the ensuing official year from the Reserve under "Agricultural."
