Proceedings of the Madras Government, Revenue Department,
15th February 1867.

No. 179. Read the following Proceedings of the Board of Revenue, dated 11th February 1867.

Read the following :—

Report on the state of the season in the District of Cuddapah, during the second fortnight in January 1867.

1. No rain fell during the fortnight. The Vaisakum cultivation was replacing the Kartekum crops, of which the greater part had been reaped; the produce varying from one-fourth to a full crop.

2. The crops were, in general, in a fair condition; but it is apprehended that in several localities the irrigation would fail before the Vaisakum crops had arrived at maturity.

3. Fever and cholera existed in the district; the latter to a very slight extent.
