Proceedings of the Madras Government, Revenue Department, 15th February 1867.

No. 183. Read the following Proceedings of the Board of Revenue, dated 7th February 1867.

Read the following letter from the Collector of Tanjore, to the Secretary to the Board of Revenue, dated Vellum, Tanjore Talook, 2nd February 1867, No. 28:—

1. During the fortnight ending 31st January 1867, little or no rain has fallen in the district. The water in the rivers has also entirely subsided, and though I have no apprehension regarding the Samba-peshanam crops in the delta, yet the Kadarambam villages in the Talooks of Tanjore and Puttukottah want rain very much, and there is no doubt that remission for lands lying under tanks will have to be granted if we have no rain shortly.

2. The price of grain is very fluctuating, and for the present on the increase, owing to the drain to which our markets are subjected from the more southern districts of the Presidency, which still continue to send a large number of bandies for paddy.

3. Cholera and fever are still prevalent, and small-pox and dysentery are also reported to have made their appearances. Cattle are generally healthy, and pasture is sufficient.

Submitted for the information of Government.
