by the Government.

Resolution.

In his letter of February 1, 1896
read in the first of the above proceedings,
the collector of Thistna submitted a
draft notification under Section 4 of the
Forest Act for a small block of ~~the~~
land called the Chirala Reserve. The
collector was then requested to state
whether this block included any portion
of a Reserve of the same name already
notified under Section 4 in 1885.

and reported in B.P. 17
17.1.87 to have
been sold before settlement as being
useless. But in the meantime the
collector himself recommended the
abandonment of the proposed block
on the ground that a considerable
portion of it was required for assign-
ment as village site to the Chirala
villagers who had been forced to move
on account of the new line of rail
being taken through their village.

2. In his letter of July 7 the collector
reported that the new reserve proposed
by him in February had included the
former reserve which had been notified
in 1885 under Section 4 and had
subsequently been given up. The
collector did not explain why the facts
had been overlooked in his office
and he did not state whether the
notification under Section 4 had
ever been formally withdrawn. A
further reference was therefore necessary.

3. The collector now reports that
the notification under Section 4 has
not been withdrawn and submits a
draft notification to declare that
the proposed reserve is to be abandoned.
The Board submits the same to
Government and requests that it may
be published in the Fort Saint George
Gazette.

4. The above correspondence denotes
a certain amount of confusion in the
Forest Branch of the Collector's office.
The proposal made in February
last for the reservation of the block
entirely

entirely ignored the previous correspondence on the subject, and a month later it was found that the area was required for other purposes. It is clear that the proposal to reserve the block was not carefully considered before it was made, and as a result the correspondence above noted has been necessitated. The collector is requested to take steps to avoid such unnecessary references in future.
