Civil Works.

READ—the following paper:—

Proceedings of the Court of Wards, Mis. No. 1142, dated 24th August 1896.

Read—the following letter from the Collector of Vizagapatam, dated 11th August 1896, No. 91/H.:—

I have the honour to request that the sanction of Government may be obtained for placing the major irrigation works of the Kasimkōta estate under the Public Works Department under the contribution system. The southern bank of the Sarada river, which enters the estate a little below Anakāpalle and flows through it till it enters the Government taluk of Sarvasiddhi is the principal source of the irrigation of the estate, and the Government is jointly interested with the estate in four main channels taken from it. The Government is also interested in an important channel taken from the northern bank of the river. The works have always been repaired by Government, the estate contributing annually its proportionate share of the cost. There are also three important channels taken from the southern bank of the river, which are purely estate works. They were originally constructed by Karumanchi Venkatachellam Pantulu, the founder of the Kasimkōta estate, and are of a primitive character. No improvements have been executed to them during the past half century, and they are therefore in bad condition. They will have to be repaired and supplied with proper masonry anicuts and head sluices, which it is undesirable to entrust to an ordinary overseer on Rs. 100 or Rs. 150, which is all the estate could afford to pay.

2. Another important reason in favour of my proposal is that the southern bank of the Sarada river overhangs the estate, and has caused much damage at different times by breaching. The lands south of the river are just being reclaimed and there are at present three points at least which will have to be protected at a very early date by masonry revetted embankments of some magnitude. The Government is also interested in this protection, as any damage caused will extend to the Government villages situate further down the river.

3. As the interests of Government are generally identical with those of the estate and many important works cannot be undertaken except in consultation, I request that very early sanction may be obtained for my proposal.

Resolution—Mis. No. 1142, dated 24th August 1896.

Submitted for the favourable consideration of Government.

2. The Collector asks for early orders.

3. The Collector will, if the proposal is accepted by Government, prepare in consultation with the local Public Works officers a list of the works to be entrusted to that department.

(True Copy and Extract.)
