For Collector

BOARD OF REVENUE (LAND REVENUE), FOREST No. 394, 28TH AUGUST 1896.

PROCEEDINGS OF THE BOARD OF REVENUE

(LAND REVENUE).

READ—the following letter from J. ANDREW, Esq., Collector of Trichinopoly, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Central Circle), dated 25th July 1896, No. 155 :—

I have the honour to forward boundary descriptions, sketches, &c., for five blocks in the Kulittalai taluk, which it is proposed to notify under section 4, Forest Act. This completes the work of selection for the Kulittalai taluk.

2. Naganúr and Aniyapúr, which are plain blocks, form extensions to the east and west of the Viramalai reserved forest.

3. Mogavanúr adjoins Shemmalai No. I extension, and the latter extension adjoins Shemmalai No. I reserved forest. Kumarikutti hill adjoins Surpam range reserved forest and the Marungápuri estate. The Shemmalai No. I extension and Mogavanúr blocks are claimed by the Kadavúr zemindar; the land has been in dispute for sometime and several enquiries have been held by subordinate Revenue officers without any decision being arrived at, as it was urged that the matter could only be settled by the Forest Settlement-officer, when the blocks were notified for reservation. These three blocks are situated on hills and are quite unfit for cultivation.

4. The principal trees and shrubs are *Albizzia amara, Acacia leucophlœa, Acacia planifrons and Cassia auriculata*. All blocks can be utilized for grazing purposes and the three hill blocks can be worked under the coupe system for supply of fuel, the demand for which is very considerable both for the manufacture of charcoal, and for supply to the South Indian Railway Company and Madura mills. The local demand for fuel from these blocks is practically *nil*.

5. In the case of Naganúr and Aniyapúr blocks which are situated on the plains, I have satisfied myself that sufficient land has been left available both for extension of cultivation and for the exercise of village privileges : as mentioned above the hill blocks are not fit for cultivation.

The draft notifications of the marginally-noted five blocks received with the letter read above will, with slight verbal alterations, be submitted to Government for approval and publication in the *Fort St. George Gazette*.

2. Of the proposed five blocks, the first three are reported to be hill blocks and quite unfit for cultivation, and the remaining two are plain blocks and form extensions to the Viramalai reserved forest.

3. Blocks Nos. 2 and 3 are claimed by the Kadavúr zemindar, and the claim will be decided by the Forest Settlement-officer after the blocks are notified under section 4.

4. In this connection, it is noted that the area of Viramalai and Shemmalai No. I reserved forests is given as 2,000 and 400 acres, respectively, in the notification appended to Government Order, No. 606, dated 24th June 1887; but in the list submitted by the Collector with his letter, No. 33, dated 27th August 1895, disposed of in Board's Proceedings, Forest Mis. No. 1, dated 2nd January 1896, it is given as 5,472 and 2,476 acres, respectively. The Collector is requested to report the correct area of these reserves.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following Proceedings of the Board of Revenue (Land Revenue), Forest No. 394, dated 28th August 1896 :—

Read—the following letter from J. ANDREW, Esq., Collector of Trichinopoly, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Central Circle), dated 25th July 1896, No. 155 :—

I have the honour to forward boundary descriptions, sketches, &c., for five blocks in the Kulittalai taluk, which it is proposed to notify under section 4, Forest Act. This completes the work of selection for the Kulittalai taluk.

2. Naganúr and Aniyapúr, which are plain blocks, form extensions to the east and west of the Viramalai reserved forest.

3. Mogavanúr adjoins Shemmalai No. I extension, and the latter extension adjoins Shemmalai No. I reserved forest. Kumarikutti hill adjoins Surpam range reserved forest and the Marungápuri estate. The Shemmalai No. I extension and Mogavanúr blocks are claimed by the Kadavúr zemindar; the land has been in dispute for sometime and several enquiries have been held by subordinate Revenue officers without any decision being arrived at, as it was urged that the matter could only be settled by the Forest Settlement-officer, when the blocks were notified for reservation. These three blocks are situated on hills and are quite unfit for cultivation.

4. The principal trees and shrubs are *Albizzia amara*, *Acacia leucophlœa*, *Acacia planifrons and Cassia auriculata*. All blocks can be utilized for grazing purposes and the three hill blocks can be worked under the coupe system for supply of fuel, the demand for which is very considerable both for the manufacture of charcoal, and for supply to the South Indian Railway Company and Madura mills. The local demand for fuel from these blocks is practically *nil*.

5. In the case of Naganúr and Aniyapúr blocks which are situated on the plains, I have satisfied myself that sufficient land has been left available both for extension of cultivation and for the exercise of village privileges : as mentioned above the hill blocks are not fit for cultivation.
