Proceedings of the Madras Government, Revenue Department, 8th March 1867.

No. 131. Read the following Endorsement of the Consulting Engineer for Railways, dated Madras, 27th February 1867, No. 57 :—

Read the following letter from the Agent and Manager of the Madras Railway Company, to the Deputy Consulting Engineer for Railways, dated Madras, 14th February 1867, No. 63.

1. I have the honor to inform you that considerable inconvenience, at present, arises from the fact that the Congecode Railway station has never been connected by a public road with the roads of the district.

2. Under these circumstances, I trust that you will be good enough to arrange for the immediate construction of a feeder from that station to the Palghaut Trunk Road, the cost of which, as you will perceive from the accompanying estimate,* will only amount to a small sum.

* Rupees 767.

1. The estimate referred to in the above letter was forwarded to the Superintending Engineer, 7th Division, who has approved of it, on the presumption that the work will be carried out by the Railway authorities. He suggests that an application may be made for funds from the Public Works Reserve after the 1st April.

2. As the feeder to the Congecode station is much required, I would recommend that the Railway authorities may be allowed to proceed with the work at once, and to send the bill for payment to the Superintending Engineer after 1st April, should no funds be available before that date.

(Signed) J. C. ANDERSON, Lieut.-Colonel, R. E.,
Consulting Engineer for Railways.

Referred to the Revenue Department.
