I do not agree to a channel being dug through my land, ⁱⁿ Gaide Agraham for supplying water to the tank of Kolukhuri Ramrajn of Kella Village. I cannot part with the land. If I part with that land, my other land will be much affected. If Government acquire the land it will result in a loss of crop of Rs 10 (to myself). When lands in Gaide Village were first acquired for the Railway, a sist of Rs 10 per acre was fixed.

Kurella Ramalingaswami of Vizianagaram States:-

I do not agree to the land near the Railway line in
Guride Agraharam being newly taken up, even on
payment of proper compensation for it. Much
loss has already accrued to a greater portion of (my)
land by the construction of the Railway line and
the loss will become more if again land is taken
up. Should the land proposed now to be a-
cquired be given up, the remaining portion will
become scattered up here & there. So ryots will
cultivate it and I will be a loser thereby. It will
not be easily accessible to the ryots to lease it up
I therefore cannot give up the land.

Kadlaman Sengavarayana Sakti of Visia
Agraharam, husband of Ousapati Sekhina

that

It has been customary for the petitioner
Kolu Kulu Ramaswami to take the surplus
water of the Ramasagar tank to his
"Chelligam tank" through a channel dug
by him through his lands but not through
our lands of Garidi Agraharam. As the
said Ramasagar tank was breach-
ed by the Railway line, its (storage)
capacity has been diminished, resulting
in loss of crops of our lands for want
of proper supply of water. We petitioned
the Collector requesting him to grant
compensation either for the restoration
of the tank or for the loss caused by
the lands being rendered unfit for
wet cultivation. The petition was
referred to the Dy. Tahsildar of
Visianagara who inspected the lands
and recommended the grant of
compensation

compensation. It has never been cus-
-tomy for the petitioner to take
the waters of Ramasagar from his tank to
his tank through our lands. He
(Ramaraju) is trying to cause loss
to us by digging a channel through
our lands though there is no tank now
and by taking the drainage of our
lands through that channel to his
tank. If this channel were dug
up, it would damage our lands
yielding Rs 1000 a year. I therefore do
not agree to a channel being dug through
our lands.

SIR,

I have the honor to forward herewith for approval and
publication in the Fort Saint George Gazette a draft notification under
Act I of 1894 for the acquisition of 1.38 acres of land in the village
of Garide Agraharam in the Vizianagaram Taluk required by the
Railway Department for digging a channel for the restoration of the
supply of water to a private tank which had been cut off by the
C. B. Railway line.

2. The owners of the lands object to their acquisition on the
ground that if a channel were to pass through their lands, their
other lands would suffer. This objection will be considered in settling
the amount of compensation. A statement of the owner's objection is
enclosed.

Sir,

Referring to G. O. No. 279 R,
dated the 19th April 1895, and to the
notification published at pages 479
and 480 of the Fort Saint George Gazette
dated 23rd idem, I have the honor to report
that it has since been found more con-
venient and less costly to compensate the
owner of the private tank, the supply of
which had been cut off by the East Coast
Railway line, in ready cash, instead of
digging a Channel for the restoration of its
supply. The land notified for acquisition
is not therefore required and has not been
taken possession of. I therefore beg to
submit herewith for approval and publication
in the Fort Saint George Gazette a draft
