No. 77. Read the following letter from the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, dated Camp, Dhurmaveram, 28th March 1867, No. 3,490:—

1. With reference to the remarks in my diary of 20th February 1867, I have the honour to forward a plan of the Talook Cutcherry, &c., as being more explanatory; the black shews the existing buildings, and the red the alterations proposed. Besides this, the Collector suggests opening windows in the back wall of the Sheristadar's Cutcherry to ventilate the cells behind it.

2. I cannot but think this system of patching and altering as very bad, and would recommend, as I have already stated in my diary, that this building be given up for the Talook Cutcherry, and that some other arrangements be made for the Sub-Collector and Moonsiff.

3. On the north and east is the road from Bangalore to Gooty, and on the south and west are narrow streets and the village huts.

Diary of the Superintending Engineer of the 3rd Division for February 1867.

ANANTAPORE CUTCHERRY.

"In this building are comprised the Sub-Collector's Cutcherry, the Moonsiff's Court, the Post Office, the Tahsildar's Cutcherry, and the wards for prisoners. The accommodation for prisoners is most inadequate, and, in my opinion, the whole building should be handed over for the Talook Cutcherry, and fresh accommodation be provided for the Sub-Collector and Moonsiff; for the Post Office, which does not require much space, accommodation could be provided."

Referred to the Revenue Department.
