Read the following papers:—

No. 25. From the Superintending Engineer, 6th Division, to the Secretary to Government, Public Works Department, dated Vennar Head, 7th March 1867, No. 1,470.

Rupees 4,880.
,, 1,860.

1. I have the honour to enclose a plan and two abstract estimates for constructing a Talook Cutcherry at Myaveram.

2. An estimate of Rupees 4,500 was sanctioned in 1861 for this Cutcherry, and the estimate of Rupees 4,880 is the same estimate corrected to meet existing rates.

G. O. No. 2,397.

3. The second estimate provides for accommodating prisoners in an existing arched building adjacent to the Cutcherry, and for an extra record-room.

4. There is a large tank immediately in rear of the Cutcherry, and the space is limited accordingly; it would not be possible to construct a Talook Cutcherry on the standard plan on the site, even were it advisable to build on that plan.

5. The Collector and the Tahsildar are both satisfied with the arrangements proposed in the enclosed plan, and ample accommodation is provided for prisoners. The two estimates amount to Rupees 6,740, or less than half what a Cutcherry, according to the standard plan, would cost; Rupees 4,500 have been provided in the Budget of 1867-68 for this Cutcherry. I would suggest, therefore, that the estimates should be sanctioned without awaiting the sanction, by Government, of a revised standard plan for Talook Cutcherries.

No. 70.

6. Under the Government Orders noted in the margin,* I have consulted with the Collectors of Tanjore and Trichinopoly relative to the alterations required to the standard plan. I am acquainted with Mr. Morris's views, and Mr. Banbury has sent to Madras for the copy of a plan approved by him when Acting Collector of Madras, and on its receipt I will report on the subject.
