SIR,

I have the honor to forward herewith, in duplicate, Indents Nos 778 & 779 for additional pot Sleepers with their complement of tie bars Cotters and gibs required for 30 feet bull headed steel rails now in the line, as well as for 2 Indents Nos 752 and 758 of 19th and 30th November 1895, under supply from England, for which additional pot sleepers were not asked when the rails were indented for, and I shall be obliged if you will be so good as to countersign and return the original copies authorising me to send them forward for compliance.

The reason why the

~~11.4.~~

Extra materials now indented for are required is explained by the Ag. Chief Engineer thus:-

"Two 30 foot bull headed rails take the place of three .20 foot rails. The latter need 6 pots to each rail or 18 in 60 feet, while the former are being laid with 10 pots per rail or 20 pots in 60 feet, or 1 pot per 30 foot rail $\frac{1}{2}$ a tie bar, 1 Gib and 1 Cotter extra."

As the English grant to meet the cost of Indents to be complied with during the current official year has been exhausted, it is requested that sanction may be conveyed to me for the re-appropriation of Rs 41,277, the total amount of the indents in question, from the grant under Schedules B & C (unsanctioned works) of the current official year, Rs 10,234 (cash) of which remains unallotted at this date.

I have the honor to be,

Sir,

The estimated value of the two indents now sub-
mitted for sanction is Rs 41,277 while the balance
of provision for indents to be complied with in
1896-97 is only Rs 25,213. As the reappropriation
suggested cannot be sanctioned locally application
should be made to the Govt. of India for an ad-
ditional allotment for English expenditure to
provide for the present indents as well as for
any others that may be submitted for com-
pliance during 1896-97.

If the case is urgent, the indents may be
sent forward for compliance in anticipation
of sanction to increase the allotment.
