GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.
Establishment.

READ—the following paper :—

From W. J. HOWLEY, Esq., Executive Engineer, Gódvári Central Division, to the Superintending Engineer, I Circle, dated Bank Canal, 6th October 1896, No. 191 S.

I have the honour to submit herewith for sanction an estimate amounting to Rs. 215 for a "temporary diversion of Vainteyam left bank in Godi limits."

2. The work was carried out on the 15th and 16th August just before the main bank reached.

3. A plan and description of this temporary bund have already been submitted with my No. 126 S. of 19th August 1896.

4. Luckily, the river began to fall on the same day that the bank breached, otherwise this small bund, about 5 feet high made of wet clods, with a side slope about $\frac{1}{4}$ to 1 and a top width of only about 2 feet, could never have stood.

5. The work was carried out by a number of ryots from the adjoining villages collected by one Nadimpalli Lakshmipatirazu, an inhabitant of Allavaram and a member of the Rajahmundry Taluk Board. This gentleman requests his valuable services should be brought to the notice of Government and I have accordingly transferred his petition to the Tahsildar of Amalapuram for disposal.

No. 1484 G.D.

Copy forwarded to the Chief Engineer for Irrigation with a request that the services rendered by Mr. Nadimpalli Lakshmipatirazu may be brought to the notice of Government.

Rarely now-a-days is any one found with sufficient energy and public spirit to render aid on an emergency.
