PUBLIC WORKS DEPARTMENT.

Irrigation.

Read—the following papers:—

From H. BRADLEY, Esq., Collector of Coimbatore, to the Chief Engineer for Irrigation, dated 11th September 1896, Dis. No. 3060 Rev.

2. I have to add, for your information, that, in reply to a reference made by the Executive Engineer, that officer has been informed that the Pérur Settiandicoottai and the Kangaroyasamudram tanks, Nos. 24 and 25 in the Imperial list, should be repaired by the Pérur Dévastánam Committee, as they lie entirely within the limits of the whole inam village of Pérur and irrigate only dévastánam lands; that the former may be removed from the Imperial list; and that the latter should also be removed but for the remark "specially classed as Imperial" noted against it.

To the Superintending Engineer, IV Circle, dated 19th September 1896, No. IV/26 C.I.

From the Sub-Division Officer, Coimbatore, to the Executive Engineer, Coimbatore Division, dated 18th October 1896, No. 787.

With reference to your endorsement, No. 3451, dated 14th instant, I beg to report that it is the Pérur Settiandicoottai tank (No. 24), and not the Kangaroyasamudram tank (No. 25) that is specially classed as "Imperial" in the list of Irrigation works of the Coimbatore district.

2. I am not aware of the reason for this having been done, but in my opinion there is no necessity why it should continue to be maintained on the list, and both the above-mentioned tanks may be removed from the Imperial list for the reason given by the Collector in paragraph 2 of his letter No. 3060 Rev. of 11th September 1896, with which I fully concur.

3. As both the tanks, however, affect the Madras Railway line, they should be borne in the list of tanks affecting railways as "Minor Irrigation works in charge of the Revenue Department," even though the cost of repairing them is to be borne by the Pérur Temple Dévastánam Committee—only one tank called the Pérur dévastánam tank, which is a misnomer, being at present included in that list.

No. 3629.

Copy forwarded to the Superintending Engineer, IV Circle, with reference to his No. 555, C.I. of 29th September 1896. I concur in the opinion expressed by the Sub-division officer.

No. 203 I.

Submitted to Government with the recommendation that the two tanks, Pérur Settiandicoottai (No. 24) and Kangaroyasamudram (No. 25), be transferred from the list of Minor works, Public Works Department, Coimbatore district, to that of tanks affecting railways as "Minor Irrigation works in charge of the Revenue Department."

Harriet Bradley Esq.,
COLLECTOR OF COIMBATORE.

TO

The Chief Engineer for
Irrigation, Madras.

SIR,

With reference to your letter, No 63 C 9, dated 11th November 1895, I have the honor to state that the Perur Devasthanam Committee is the body that should contribute towards the repair of the Kuniannur channel and the Kuniannur tank, which have to be treated as contribution works in this district. The proportionate shares they should contribute for each of the works are shown in the accompanying statement.

I have to add, for your information, that in reply to a reference made by the Executive Engineer, that officer has been informed that the Perur Sattandi Kuttai and the Kangarayasamudram tanks, Nos 24 and 25 in the Imperial list, should be

repaired by the Perur Devasthanam Committee,
as they lie entirely within the limits of the
whole Ennam village of Perur and
irrigate only Devasthanam lands, that the
former may be removed from the
Imperial list, and that the latter should
also be removed but for the remark
"Specially classed as Imperial" noted
against it.

3. The list of imperial works received ^{referred}
with your letter is returned.

I have the honor to be
Sir,
