GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Irrigation.
Account.

Read—the following paper:—

From Lieutenant-Colonel O. V. BODDY, R.E., Superintending Engineer, VI Circle, to the Chief Engineer for Irrigation, dated Trichinopoly, 6th November 1896, No. 1247 T.N.

I have the honour to request that the following modification of existing allotment in and additional allotment required for the Tinnevely division may be sanctioned at your earliest convenience:—

Item number.		Existing grant.	Modification of allotments applied for.		Modification of allotments proposed.	
			Reduction.	Increase.	Reduction.	Increase.
	49. IRRIGATION. Capital expenditure on Public Works not charged to Revenue. Srivaikuntam Anicut System.	Rs.	Rs.	Rs.	Rs.	Rs.
1	Reserve for works (cutting the catch drain of Srivaikuntam anicut system) ..	4,000	4,000	..	4,000	..
	42. MAJOR WORKS. Working expenses—Srivaikuntam Anicut System.					
2	Maintenance and repairs (lump sum) ..	24,000	..	31,000	..	31,000
	43. MINOR WORKS AND NAVIGATION. Works for which Capital and Revenue Accounts are kept. Marudur Anicut System—Revenue Account.					
3	Maintenance and repairs (lump sum) ..	12,000	..	3,000	..	3,000
	43. MINOR WORKS AND NAVIGATION. Works for which neither Capital nor Revenue Accounts are kept—P. N. D.					
4	Repairs (lump sum) ..	40,000	..	3,000	..	3,000
5	Repairs—Agricultural works (lump sum) ..	25,488	..	8,512	..	8,512
6	Repairs—Tank restoration works (lump sum) ..	65,000	..	8,000	..	8,000
	Total ..	..	4,000	61,512	4,000	61,512

* Includes Rs. 27,000 already applied for.

2. Item 1.—Surrendered as estimate has not yet been sanctioned.
Items 2 to 5.—Required to repair damages of the late flood.
Item 6.—As the existing grant will be worked out by November 1896, the additional amount applied for, viz., Rs. 8,000 is required for expenditure during the rest of the year.

No. 206 I.

Submitted to Government.

2. The surrender from item 1 may be credited to the reserve under that head.

3. The Superintending Engineer, VI Circle, now applies for an additional grant of Rs. 31,000 for maintenance and repairs under "42. Major Works (Working Expenses)" or Rs. 38,130, including the charge for establishment, while in the representation made to the Government of India in letter No. 769 I., dated 19th September 1896, an additional allotment of Rs. 23,850 only was applied for, sanction to which has not yet been communicated. As the increased amount is required for repairing damages of the late flood, it is recommended that the sanction of the Government of India thereto be solicited, as the execution of the repairs cannot be postponed till next financial year.

4. There are no funds available to meet the demands under "43. Minor Works and Navigation." Urgent expenditure should be met by re-appropriation of existing grants. Should, however, funds become available by surrenders later on in the year, the necessity for augmenting the grants under this head may be considered.

(Signed) W. HUGHES,
Chief Engineer for Irrigation.

ORDER—No. 984 I., dated 23rd November 1896.

The sum of Rs. 4,000 or Rs. 4,220, including the charge for establishment surrendered under "49. Capital expenditure not charged to Revenue," Srivaikuntam anicut system, is resumed and credited to the reserve under that head.

2. The attention of the Superintending Engineer, VI Circle, is drawn to the concluding paragraph of the foregoing endorsement of the Chief Engineer for Irrigation.

3. Ordered that a copy of these Proceedings be forwarded to the Government of India with a request that early sanction may be accorded to the additional grant of Rs. 38,130 required under "42. Major Works (Working Expenses)" for the Srivaikuntam anicut system in lieu of the sum applied for in letter No. 769 I., dated 19th September 1896.

Submitted to Govt.

2. The surrender from item 1 may be credited to the reserve under that head.

3. The Supt Engr, Mird, now applies for an additional grant of Rs 31,000 for maintenance & repairs under "42. Major works (Working Expenses)" or Rs 38,130 including the charge for establishment, while in the representation made to the Govt of India in letter

10769 J. 419. Sept. 196,
in additional allotment
of Rs 23,850 only was
applied for, sanction
to which has not yet
been communicated.

As the increased amount
is required for repairing
damages of the late
flood, it is recom-
mended that the
sanction of the Govt
of India thereto be
solicited, as the execution
of the repairs cannot
be postponed till
next financial year.

There are no
funds available to
meet the demands under
43 Minor Works & Repairs.
Urgent expenditure

should be met by an
appropriation of existing
grants. Should, however,
funds become avail-
able by surrenders
later on in the year,
the necessity for
augmenting the grants
under this head
may be considered.

Order thereon.

The sum of Rs
4,000 or Rs 4,925 in-
cluding the charge for
establishment surrendered
under 49. Capital
Expenditure not charged
to Dept., Sivakumtham
Ancient System, is
resumed & credited
to the reserve under
that head.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Irrigation.
Account.

Read—the following papers:—

Telegram from the Secretary to the Government of India, Public Works Department, to the Secretary to the Government of Madras, Public Works Department, Irrigation Branch, Ootacamund, dated Simla, 19th August 1896, No. 64 A.I.

Your telegram, 23rd July, additional 30,000 for Srivaikuntam system should be provided by re-appropriation within existing grant under 42. Please explain by letter why demand was not put forward earlier.

Memo. No. VI./55 T.N.

With reference to Proceedings of Madras Government, No. $\frac{601}{A}$ I., dated 23rd July 1896, the undersigned has the honour to inform the Superintending Engineer, VI Circle, that the Government of India has not sanctioned the additional grant of Rs. 30,000 therein applied for for repairing the damages caused to the works of the Srivaikuntam anicut system by the floods in December last. Until the grant for this system can be augmented by a re-appropriation of the total grant under "42. Major works (Working expenses)," expenditure under this head should be restricted.

2. Though the floods occurred in December last, it is observed that additional funds for expenditure during the current year were applied for only on the 24th May 1896 in letter No. 609 T.N. In this office memo. No. 34 T.N., dated 5th June, the Superintending Engineer was asked to explain why the proposed expenditure will not bear postponement to the next financial year. This explanation was furnished in his No. 1075 T.C., dated 7th July 1896, on which G.O., No. $\frac{601}{A}$ I., dated 23rd July 1896, was passed. The Government of India now desires it to be explained by letter why the demand for additional funds was not put forward earlier. The Superintending Engineer is requested to be so good as to submit the explanation required at his earliest convenience.

26th Aug. 1896.

(Signed) R. R. E. DRAKE-BROCKMAN, Col., R.E.,
Chief Engineer for Irrigation.

From W. HUGHES, Esq., Superintending Engineer, VI Circle, to the Chief Engineer for Irrigation, dated Trichinopoly, 30th August 1896, No. 1014 T.N.

With reference to your No. VI./55 T.N., dated 26th August 1896, I have the honour to state that the Executive Engineer's first application for additional funds reached my office on the 18th May 1896, and I do not think he could have ascertained much earlier what grants he was likely to require. The cost of repairing flood damages could only be roughly guessed until the estimates were mostly made, and moreover the amount spent on these works from last year's grant was not known until sometime

in April. The application was sent to you from my office on 27th May, and all the subsequent delay arose from your inability to obtain the required funds by transfer from other circles and my subsequent enquiry as to the amount which could be surrendered from existing grants.

2. The Executive Engineer, Tinnevely, has been ordered sometime ago to restrict work on the Srivaikuntam anicut system as far as possible. The minimum grant required will be reported in a few days.

Telegram from the Chief Engineer for Irrigation, to the Superintending Engineer, I Circle, dated 26th August 1896, No. 47.

Please wire what portion of current year's grant under 42. Repairs, Gódvári delta, can be spared for urgent demands elsewhere.

Telegram from the Superintending Engineer, I Circle, to the Chief Engineer for Irrigation, dated Waltair, 3rd September 1896.

Your telegram, dated 26th ultimo. Rupees five thousand available for transfer from Central division, Gódvári, under 42. Maintenance and Repairs.

Telegram from the Chief Engineer for Irrigation, to the Superintending Engineer, III Circle, dated 26th August 1896, No. 48.

Please wire what portion of current year's grant under 42. Repairs, Kurnool canal, can be spared for urgent demands elsewhere.

Telegram from the Superintending Engineer, III Circle, to the Chief Engineer, for Irrigation, dated Bellary, 30th August 1896.

Your telegram 26th. Funds not available 42. Canal Repairs. Grant already too low, more required later on.

No. 164 I.

Submitted to Government with a recommendation that the sum of Rs. 5,000, which can be spared from the current year's grant for the Gódvári delta system, may be transferred to the Tinnevely division where an outlay of Rs. 32,583 has been incurred up to end of July 1896 against a grant of Rs. 19,863. The Superintending Engineer, VI Circle, has already been instructed to restrict further expenditure. No funds can be spared from the Kistna delta system for which an additional grant of Rs. 1,23,000 has just been sanctioned by the Government of India to repair damages caused by the unprecedented floods this year. The Superintending Engineer, III Circle, wires that the grant for the Kurnool-Cuddapah canal is already too low. In his application printed in Proceedings of Madras Government, No. 730 I., dated 27th August 1896, the Superintending Engineer, V Circle, represented that an additional grant of Rs. 8,500 for the Cauvery delta system was absolutely necessary, but this demand has not been complied with. From the above it will be seen that the grant for the Srivaikuntam anicut system cannot be augmented by re-appropriation, as suggested by the Government of India, to the full extent required.

(Signed) R. R. E. DRAKE-BROCKMAN, Col., R.E.,
5th September 1896. Chief Engineer for Irrigation.

PUBLIC WORKS DEPARTMENT.

Irrigation.
Account.

LETTER—from

COLONEL R. R. E. DRAKE-BROCKMAN, R.E.,
Secretary to the Government of Madras,
Public Works Department,
Irrigation Branch,

To

THE SECRETARY TO THE GOVERNMENT OF INDIA,
PUBLIC WORKS DEPARTMENT.

SIR,

With reference to your telegram, No. 64 A.I., dated 19th August 1896, I am directed to forward a copy of Proceedings of Madras Government, No. 768 I., dated 19th September 1896, and to explain that the delay in applying for the additional funds required for repairing the damages caused to the works of the Srivaikuntam anicut system by the abnormal floods in the Támbraparni and its tributaries is due to the difficulty experienced in estimating the requirements until the estimates for repairing the damages were mostly made, and to the necessity for enquiring thereafter what amounts could be surrendered from existing grants on behalf of the urgent works which could not be postponed till next official year.

2. As the existing grant for the system has already been exceeded, and as it has been possible to provide by re-appropriation only Rs. 6,150 out of the additional grant of Rs. 30,000 applied for, I am directed to request that the Government of India may be pleased to reconsider the demand, and, if possible, sanction the balance of the amount required, so that the outlay already incurred in excess of the grant may be covered by an appropriation, and urgent works on which it has been necessary to restrict further outlay may be proceeded with to completion.

I have the honour to be,

Sir,

Your most obedient servant,

(Signed) R. R. E. DRAKE-BROCKMAN, Colonel, R.E.,
Secretary to Government,
Irrigation Branch.
