which was approved by Government in its order No. 283, Revenue, dated 23rd June 1896, will be submitted to Government for approval and publication in the Fort St. George Gazette.

2. Blocks 2, 3 and 4 are reported to contain patta fields which, the Collector reports, will be dealt with at settlement.

The patta fields should have been indicated by a distinct colouring on the map so as to facilitate verification.

3. It is presumed that the alterations proposed by the Conservator and approved by the Board and Government in its order quoted above have been duly carried out in the present proposals. This point should have been specifically noticed by the Collector.

4. It is observed that the figures now furnished in the area statement in respect of the Madurantakam blocks do not tally with those shown in the area statement which accompanied the proposals sanctioned in Government Order, No. 783, Revenue, dated 14th September 1897. The discrepancy requires explanation.

5. The area under cultivation in the Edamachi village as shown in the village-war statistics in respect of the Edamachi block differs from that shown in the ayacut abstract for the Kavanipakkam block. The Collector is requested to explain the difference.
