6. Do we think applicants  
should be allowed to return their appl<sup>ns</sup>  
indirectly? He can write his name on  
his application of 2.

I agree with the Sec. & think the Bd. should be  
left to make their own approval. Plans of application  
always include the land they will want for costly  
uses. A new set of rules will be wanted for  
extra land is given at a low price

Lands on the Anamalais.

Requesting the Board to withdraw its approval to the grant of certain grass lands on the Anamalais for the construction of cooly sheds, &c.

## GOVERNMENT OF MADRAS.

## REVENUE DEPARTMENT.

READ—again G.O., No. 100, Revenue, dated 16th February 1897.

ABSTRACT.—Passing orders on a memorial received from Messrs. Edmiston, Windle, Rhodes James Allan, Brodie and Narasiah on the subject of the grant of lands on the Anamalais.

READ—the following Proceedings of the Board of Revenue (Land Revenue), Forest Mis. No. 1647, dated 19th December 1896:—

Read—the following letter from H. BRADLEY, Esq., Collector of Coimbatore, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Southern Circle), dated 11th December 1896, Ref. on C. No. 1196:—

I have the honour to inform you that a large open space several hundred acres in extent consisting of grass land and rock was included within the limits of the original application of Mr. E. G. Windle of Kotagiri for land on the Anamalais. On the 2nd November he applied for this land and to be allowed to take it up on special terms in addition to his application for 1,000 acres of forest land which he proposed to put in.

2. In reply I informed him that I was not able to support his application, because, in my opinion, this open area should be retained for public purposes for the following reasons:—

There are a number of Khaders living there and they should be allowed to move about on this land.

The main road will probably pass through it.

A Forest rest-house will probably be built on it.

A large rain-gauge will probably be set upon it.

It is a suitable halting place and camping ground.

It would be made use of in this manner by coolies and pack-bullock drivers and by planters and others passing through.

It would be required for assigning small plots to planters for temporary use for the construction of sheds for coolies, for storing rice, &c.

3. Mr. Windle has now sent in a second application and asks for 25 acres of this land in its eastern end for building cooly lines and other sheds I believe, and I see no objection to this, and I request to know on what terms this and similar applications which may be received should be disposed of. I should recommend that there be a fixed maximum of, say, 20 acres for land like this which is wanted for a special purpose and will not necessarily be joined as to the application for forest land which has to be in our block, that it be granted without auction at an easy annual rental of perhaps As. 8 per acre and that the occupier be at liberty to relinquish it at any time.

Endorsement by E. D. M. HOOPER, Esq., Acting Conservator of Forests, Southern Circle, dated Coimbatore, 17th December 1896, No. 2255.

Forwarded.

Resolution—Forest Mis. No. 1647, dated 19th December 1896.

The Collector's proposals are approved it being understood that grants of the kind can only be made to holders of forest land under the rules sanctioned by Government for the Anamalais.

ORDER—No. 101, Revenue, dated 16th February 1897.

Forest No. 27.

His Excellency the Governor in Council considers that the effect of the grant of the concession recommended by the Collector is the indirect extension of the maximum area fixed by Government in the case of each applicant and that a new set of rules would have to be framed in order to provide for the grant of extra land at a low rental and subject to relinquishment at any time. This, in the opinion of His Excellency in Council, is inadvisable and the Board will therefore be requested to withdraw its approval to the Collector's proposal.
