October 1895, Ref. on Cur. No. 1086-For. :—

4. The area of the block as notified under section 4 was 5,450 acres, but on account of the exclusions ordered at settlement nearly 1,212 acres have been thrown out and about 5 acres have been excluded from reservation and treated as enclosures within the block. The area of the block as it stands is therefore 4,233 acres, which is the extent entered in the sketch and the statement given above.

5. Owing to certain discrepancies which were discovered in the B. register and in the draft notification the papers were returned to the Forest Settlement-officer for their rectification and received back on the 7th instant.

ENCLOSURE No. 1.

From W. C. McMURRAY, Esq., Forest Settlement-officer, South Arcot district, to the Collector of South Arcot, dated Vellore, 22nd May 1895, No. 276.

I have the honour to report the conclusion of the settlement of the proposed Rishivandiyam reserved forest block No. 157 in the Kallakurchi taluk of your district.

2. The notification under section 4 proposing to constitute this area into a reserved forest appeared in the *Fort St. George Gazette*, dated 14th June 1892 and the proclamation under section 6 was published in the District Gazette Supplement, dated August 1892.

3. The block was perambulated, inspected and enquired into by me in September 1893. Thirty-eight claims in all were filed for the following rights:—

(i) Thirteen claims were to right of way over a Local Fund road, over nine cart-tracks and three foot-paths.

(ii) Eight claims were to right to shrines and right of way to them.

(iii) Eight claims were to Government patta and inam rights over 1,021.54 acres of land and two Illuppai trees.

(iv) Nine claims were to miscellaneous rights. Ten claims involved in item (i), all the claims in item (ii), six claims in item (iii) and four claims in item (iv) were fully admitted, two claims in item (iii) and three in item (iv) were partly admitted and partly rejected, and the rest were fully rejected. The last claim was disposed of on 10th September 1894 and the appeal time expired on 9th November 1894 without any appeal being filed; but the final report could not be submitted earlier as acquisition by exchange had to be arranged for certain lands and deeds of conveyance executed and registered. The deeds of conveyance were received from the Tahsildar on the 21st instant.

4. The block is thus free of all rights except those admitted above.

5. The following are sent herewith:—

(a) B. register of claims.

(b) Draft notification under section 16.

(c) Numerical statement of claims filed and disposed of.

(d) Sketch of the block.

6. The date in the draft notification is left blank. Two months' time will be necessary to have it duly published as required by the Act.

P.S.—I beg to bring to the notice of the Board and Government the necessity of allowing the right to clear and repair the feeding channels in claims Nos. 10, 21 and 27 which were rejected as a right.

GUDIYATTAM,
28th March 1896.

(Signed)

W. C. McMURRAY,
Forest Settlement-officer.

ENCLOSURE No. 2.—B. Register.

ENCLOSURE No. 3.—Draft notification.

ENCLOSURE No. 4.—Sketch-map.

ENCLOSURE No. 5.—Numerical statement.

Endorsement by E. P. POPERT, Esq., Conservator of Forests, Central Circle,
dated Madras, 18th October 1895, No. 759.

Forwarded.

Resolution—Forest Mis. No. 117, dated 27th January 1896.

From the sketch-map it is observed that the boundary of the Rishivandiyam block, as finally settled, includes portions of certain tanks forming the irrigation sources of villages as shown below:—

- (1) Rishivandiyam, periyayeri (tank);
- (2) Andiyur, two periyayeris and one sitteri;
- (3) Udaiyamampattu, periyayeri; and
- (4) Torasalurvada, kilyeri.

The right to the first three of the tanks has been admitted by the Forest Settlement-officer and it is not desirable to include them within the reserve. The Collector is therefore requested to submit proposals for amending the boundary so as to exclude these tanks. The original selection has been much cut up at settlement and the boundary now shown is irregular and tortuous, advantage should therefore be taken of this remand to amend the boundary generally by rounding off corners and throwing out outlying portions of no special value.

2. The following points are also noticed in connection with the block and should be attended to during revision:—

(i) *Claim 3-IV.*—The total extent of lands claimed amounts to 162.42 and not 362.42 acres as given in the register. It is also noted that the figures under assessment in this as well as in claims 28-XXV and 29-XXVI have not been totalled.

(ii) *Claim 6-VII.*—The right of way dealt with has not been indicated on the map. The omission should be supplied.

(iii) *Claim 11-XII.*—The point of entrance of the Local Fund road has not been described with reference to the revised boundary adopted at settlement. The necessary correction should be made.

(iv) *Claim 21-XIV.*—Though the right to the supply channel is rejected at settlement, the Forest Settlement-officer should have made mention of it in his report with a view to its being granted as a concession with reference to paragraph 2 of Government Order, No. 74, dated 11th February 1889.

(v) *Claim 22-XV.*—The entry in the remarks column shows that survey No. 255 has been granted in exchange for the same number which is apparently a mistake. It should be rectified, and the Collector is requested to see that such mistakes are avoided in future.

(vi) *Claim 34-XXXVI.*—The foot-path quits the reserve south of the north-west and not south-west corner of No. 244 of Kunniyur as given in the register.

3. An early return of the papers duly revised is requested.

With reference to paragraph 1 of Board's Proceedings, Forest Mis. No. 117, dated 27th January 1896, I have the honour to submit the sketch of the Rishivandiyam block in the Kallakurchi taluk showing the boundaries proposed to be finally adopted. The proposed revision not only excludes the irrigation tanks referred to by the Board, but also considerably improves the boundary wherever practicable. The alterations are indicated in the sketch with blue pencil, and if the Board approve of them, the settlement records will be amended, when the several points noticed in paragraph 2 of the Proceedings will also be attended to.

ENCLOSURE No. 1.—Sketch-map.

Resolution—Forest Mis. No. 303, dated 28th February 1896.

The Board considers that, in addition to the alterations now suggested by the Collector, the boundary of the Rishivandiyam block should be further modified by cutting off the outlying portions at its north-east and south-west corners as indicated by red pencil on the map. The settlement records should be corrected accordingly and re-submitted at an early date.

No. 117, dated 27th January 1896, having been rectified.

2. In regard to the last paragraph of the Forest Settlement-officer's report, the District Forest-officer says that the right to repair and clear the feeding channels alluded to in claims Nos. 10, 21 and 27 will be allowed as a matter of concession under departmental order to be issued on behalf of the concerned ryots on the block becoming a reserved forest.

3. A fresh sketch of the block, a revised statement of area and condition and a copy of the Forest Settlement-officer's letter, No. 47, dated 28th March 1896, explaining the discrepancies pointed out by the Board are enclosed.

RESOLUTION—Forest, No. 10, dated 7th January 1897.

The revised draft final notification of the Rishivandiyam block as now submitted throws out many irrigation tanks and makes the block more compact in accordance with the instructions issued in the Proceedings read above. It will accordingly be submitted to Government for approval and publication in the *Fort St. George Gazette*, the 30th April next being recommended as the date from which the reservation shall take effect.

2. *Claim 18-XXIII*.—The tank dealt with in this claim having been thrown out by revision of boundary, the admission of the right to the use of its water and to repair its bund is no longer necessary. The Forest Settlement-officer should have appended a note to his decision to the above effect so as to make the claim register complete in itself.

3. The block lies in the Kallakurchi taluk and covers an area of 3,610 acres as finally settled.

ENCLOSURE No. 1.

From W. C. McMURRAY, Esq., Forest Settlement-officer, South Arcot district, to the Collector of South Arcot, dated Vellore, 22nd May 1895, No. 276.

I have the honour to report the conclusion of the settlement of the proposed Rishivandiyam reserved forest block No. 157 in the Kallakurchi taluk of your district.

2. The notification under section 4 proposing to constitute this area into a reserved forest appeared in the *Fort St. George Gazette*, dated 14th June 1892 and the proclamation under section 6 was published in the District Gazette Supplement, dated August 1892.

3. The block was perambulated, inspected and enquired into by me in September 1893. Thirty-eight claims in all were filed for the following rights:—

(i) Thirteen claims were to right of way over a Local Fund road, over nine cart-tracks and three foot-paths.

(ii) Eight claims were to right to shrines and right of way to them.

(iii) Eight claims were to Government patta and inam rights over 1,021.54 acres of land and two Illuppai trees.

(iv) Nine claims were to miscellaneous rights. Ten claims involved in item (i), all the claims in item (ii), six claims in item (iii) and four claims in item (iv) were fully admitted, two claims in item (iii) and three in item (iv) were partly admitted and partly rejected, and the rest were fully rejected. The last claim was disposed of on 10th September 1894 and the appeal time expired on 9th November 1894 without any appeal being filed; but the final report could not be submitted earlier as acquisition by exchange had to be arranged for certain lands and deeds of conveyance executed and registered. The deeds of conveyance were received from the Tahsildar on the 21st instant.

4. The block is thus free of all rights except those admitted above.

5. The following are sent herewith:—

(a) B. register of claims.

(b) Draft notification under section 16.

(c) Numerical statement of claims filed and disposed of.

(d) Sketch of the block.

6. The date in the draft notification is left blank. Two months' time will be necessary to have it duly published as required by the Act.

P.S.—I beg to bring to the notice of the Board and Government the necessity of allowing the right to clear and repair the feeding channels in claims Nos. 10, 21 and 27 which were rejected as a right.

Resolution—Forest Mis. No. 117, dated 27th January 1896.

From the sketch-map it is observed that the boundary of the Rishivandiyam block, as finally settled, includes portions of certain tanks forming the irrigation sources of villages as shown below:—

- (1) Rishivandiyam, periyayeri (tank);
- (2) Andiyur, two periyayeris and one sitteri;
- (3) Udaiyamampattu, periyayeri; and
- (4) Torasalurvada, kilyeri.

The right to the first three of the tanks has been admitted by the Forest Settlement-officer and it is not desirable to include them within the reserve. The Collector is therefore requested to submit proposals for amending the boundary so as to exclude these tanks. The original selection has been much cut up at settlement and the boundary now shown is irregular and tortuous, advantage should therefore be taken of this remand to amend the boundary generally by rounding off corners and throwing out outlying portions of no special value.

2. The following points are also noticed in connection with the block and should be attended to during revision:—

(i) *Claim 3-IV.*—The total extent of lands claimed amounts to 162.42 and not 362.42 acres as given in the register. It is also noted that the figures under assessment in this as well as in claims 28-XXV and 29-XXVI have not been totalled.

(ii) *Claim 6-VII.*—The right of way dealt with has not been indicated on the map. The omission should be supplied.

(iii) *Claim 11-XII.*—The point of entrance of the Local Fund road has not been described with reference to the revised boundary adopted at settlement. The necessary correction should be made.

(iv) *Claim 21-XIV.*—Though the right to the supply channel is rejected at settlement, the Forest Settlement-officer should have made mention of it in his report with a view to its being granted as a concession with reference to paragraph 2 of Government Order, No. 74, dated 11th February 1889.

(v) *Claim 22-XV.*—The entry in the remarks column shows that survey No. 255 has been granted in exchange for the same number which is apparently a mistake. It should be rectified, and the Collector is requested to see that such mistakes are avoided in future.

(vi) *Claim 34-XXXVI.*—The foot-path quits the reserve south of the north-west and not south-west corner of No. 244 of Kunniyur as given in the register.

3. An early return of the papers duly revised is requested.

Resolution—Forest Mis. No. 303, dated 28th February 1896.

The Board considers that, in addition to the alterations now suggested by the Collector, the boundary of the Rishivandiyam block should be further modified by cutting off the outlying portions at its north-east and south-west corners as indicated by red pencil on the map. The settlement records should be corrected accordingly and re-submitted at an early date.

Claim 2.—By the revision of boundary adopted by the Board in its Proceedings, Forest Mis. No. 117, dated 27th January 1896, the cart-track will now enter the reserve, about half a furlong north-west of the khandam stone on the west side of survey No. 257 of Andiyur immediately south of the one at its westernmost point, runs south for about three-quarter furlong and quits it about three-quarter furlong south-west of the same point.

* The land in survey No. 529-B was acquired under the Land Acquisition Act. Resolution—Forest No. 10, dated 7th January 1897.

The revised draft final notification of the Rishivandiyam block as now submitted throws out many irrigation tanks and makes the block more compact in accordance with the instructions issued in the Proceedings read above. It will accordingly be submitted to Government for approval and publication in the *Fort St. George Gazette*, the 30th April next being recommended as the date from which the reservation shall take effect.

2. *Claim 18-XXIII.*—The tank dealt with in this claim having been thrown out by revision of boundary, the admission of the right to the use of its water and to repair its bund is no longer necessary. The Forest Settlement-officer should have appended a note to his decision to the above effect so as to make the claim register complete in itself.

3. The block lies in the Kallakurchi taluk and covers an area of 3,610 acres as finally settled.
