From

EDGAR THURSTON, Esq.,

SUPERINTENDENT,

Government Museum,

Madras,

To

The Secretary to Government,
Local and Municipal Departments.

SIR,

With reference to para. 2 of G.O. 154. 1115,

11 January 1897, I have the honour to report that I
have examined the botanical library, and to submit
herewith a scheme for the distribution of the books, in
drawing up which I have mainly kept in view the
importance, now that the herbarium has been restored
to Madras, and the Government Botanist is no
longer at Cochin, of having botanical literature
available in connection with the botanical section of
the Museum, quite apart from the books in the Government
Public Library. The most important books, or

periodicals,

periodicals, which bear on gardening, quinology,
and cinchona cultivation, have been set apart
for the Curator of the Jarbut and Director of Cinchona
Plantations respectively.

I learn from a statement of periodicals
supplied to the Government Botanist that they
include the 'Annales des Sciences Naturelles'
(Botanique). This publication is also taken in for
the Museum library, and I am of opinion that it is
no longer necessary to continue its supply to the
Botanical office.

I have the honor to be,

Sir,

Your most obedient servant
Edgar Thurston

Superintendent,

Government Museum.

From

Edgar Thurston Esq.
Superintendent, Government Museum.
