BOARD OF REVENUE (REV. SETT., L. RDS. AND AGRI.), 10TH FEB. 1897, No. 119.

PROCEEDINGS OF THE BOARD OF REVENUE (REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

READ—the following letter from C. J. WEIR, Esq., Collector of Ganjam, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated Chatrapur, 25th November 1896, Ref. C. No. 2839-Ver. :—

Referring to B.P., dated 9th November 1896, No. 330, I have the honour to request orders on the following points :—

(a) If the paddy crop on rainfed paddy land has failed and a second (dry) crop is raised with the help of Government water, should water-rate be charged?

(b) If a first wet crop on a wet land failed owing to deficiency of water and a second wet crop is raised with the help of Government water, should a full rate or faslijasti be charged?

RESOLUTION—dated 10th February 1897, No. 119.

The Collector's query (a) is answered in the affirmative. The land, being rainfed paddy land, is not entitled to Government water; and there is no reason why, if water is taken, the usual water-rate should not be charged. The Board's order quoted refers to the cultivation of dry crops on wet lands.

2. In the second case referred to by the Collector, the land is a wet land and is liable to pay the full single crop wet assessment for the second wet crop if the circumstances of the failure of the first crop are such as to justify the grant of remission under the rules. Otherwise both the crops should be charged.
