Proceedings of the Board of Revenue

(Separate Revenue.)

Dated 12th February, 1897.

No. 566.

Read the following letter from the Superintendent of stamps, Madras, No. 2500, dated 13th November 1896.

The store room of the stamp office in which unopened cases of stamps are now kept is found to be quite inadequate. Too many cases are crammed together rendering no facility to inspect their condition on all sides from time to time as to their safety from dampness, white ants &c. Difficulty is also experienced in issuing on indent the old stock first and then the new consignment, since the cases received by fresh consignments have sometimes for want of sufficient room to be piled on those of the old stock. I therefore consider it very necessary to have an additional store room, close to the present one, so that a portion of

the unopened cases may be removed to it.

2. The area of the present store room is 6,750 square feet ($45' \times 150'$) and about 3,400 unopened cases are now stored in it. The available site for an additional store room is 5,280 square feet ($80' \times 66'$) as will be seen from the enclosed sketch.

3. The consulting Architect to Government whom I requested to prepare a plan and estimate states that the work will cost above Rs 500-0-0 and that the sanction of ^{Government} should be obtained to his doing so. vide his letter dated 6th November 1896 NE 4013 (copy enclosed).

4. I have the honor therefore to request that the Board will be pleased to obtain the sanction of Government for the construction of the required additional store room and for the preparation of the necessary estimates and plans.

Resolution.

Resolution:-

Submitted to Government with the request that the Consulting Architect be directed to take steps for carrying out the Superintendent's wishes.

2. The Commissioner has inspected the place and agrees with the Superintendent of Stamps in considering it very necessary to have an additional store room close to the present one so that a portion of the unopened cases may be removed to it. The boxes would cover the whole space now available at least two deep and work cannot be done in such limited space without endless delays and confusion.

(True copy and extract)

Commisariat

Assistant Secretary

To The Secretary to Government,

Revenue Department,

With the plan prepared by the Consulting Architect to Government.

Superintendent of Stamps.
