PROCEEDINGS OF THE BOARD OF REVENUE.

(Land Revenue)

No.710 Misc. dated 24th February 1897.

Read endorsement of the Ag.Assistant Secretary to Government, Revenue Department, No.3329 Misc. dated 17th August 1895.

And the following reference thereon dated 12th September 1895.

With reference to his letter No. 4-33 Ind. Ref. on Gen. Ver. No.2494 dated - 13-3-1894 to the address of the Consulting Engineer for Railways, the - 7-11-1894 Collector of South Arcot North Arcot is requested to state whether the sum of ----- Rs.1000 4266 therein estimated as the probable cost of compensation for the de-terioration of lands relinquished by the South Indian Railway relates to lands acquired under Part VI of the Land Acquisition Act for use for a term of years only or to such as were acquired absolutely on payment of their full market value, although applied for as B class lands. When B class lands permanently acquired are relinquished, they are to be off-fered to the original owners for their present value. In this case no compensation for deterioration is necessary. the difference between the cost of the original acquisition of the lands and the present value be-ing a charge against the Railway. If however the lands were taken up - for temporary use and for a specified period only they have to be res-tored to their owners at the end of the stipulated term with compensa-tion for the damage, if any caused to the lands while in the occupation of the Railway Company and not allowed for under the terms of the acqui-sition. The Consulting Ergineer's reference to which the Collector's - letter above referred to was a reply relates to lands of the latter kind viz: those acquired for use for a term of years. If the estimate framed by the Collector does not relate solely to this class of lands, a re-vised estimate should be furnished. In doing so, the proviso to Section 36(2) of the Act regarding the absolute acquisition of the lands shou

be kept in view. Read letter from the Collector of South Arcot No.2332/ver, dated 3rd October 1895.

Read also letter from the Collector of North Arcot, DisNo.379/ver dated 31st January 1897.

Resolution.

The reports read above from the Collectors of North Arcot and South Arcot will be submitted to Government with reference to its en--dorsement No.3329 Mis. Rev. dated 17th August 1895.

2. The point for consideration is whether any, and what provision should be made in the budget estimates of the South Indian Railway to meet claims to compensation likely to arise in the North Arcot and - South Arcot Districts in connection with the B class lands relinquished on the Cuddappah Nellore and the Villupuram Guntakal sections.

3. According to the statement originally submitted by the Collector of North Arcot the estimated value of the compensation payable in respect of the lands relinquished in his district was Rs.4266. The Collector now submits a revised statement according to which 207.20 acres of private land were acquired under part VI of the Land Acquisition Act for use for - specific periods and subject to the understanding that the lands would be restored at the end of the stipulated term with compensation for the -- damage, if any, caused to them while in the occupation of the Railway. Eliminating from the above area, the portion which has to be acquired permanently under the proviso to section 36(2) of Act I of 1894 and that which can be returned to the owners without any compensation for - damage the net area to be restored with costs for damage is 86.52 acres and the probable compensation on this account, is Rs.2377-8-8. In item 12 of the statement (Edulcheruvu) the total of columns 6-9 is less than the extent shewn in column 5 by 5 acres and the Collector will be asked Total of cols.7 to 9 of the Collector's statement.

to adjust the dufference. Subject to the necessary adjustment on this account, the Board considers that the Collector's estimate may be accepted. The Collector will be requested to report the probable cost of the permanent acquisition of the 7.72 acres (column 7 of the statement) which are said to have become absolutely unfit for cultivation. His re--ply will be submitted to Government on receipt.

4. In his letter dated 13th March 1894 to the address of the Con--sulting Engineer for Railways, the Collector of South Arcot estimated the value of the claims likely to arise in his district at Rs.1000. In his letter read above he states that the above estimate requires no revision with reference either to the nature of the original acquisition or to the proviso to section 32(6) of Act I of 1894. The Board consi--ders that the Collector's estimate may be accepted subject to modifi--cation with reference to claims since paid up if any.

5. The Board regrets the delay in the submission of the pre--sent report, which is due to the fact that in North Arcot a revised statement of relinquished lands had to be prepared after a fresh local inspection and enquiry. The Collector's report dated 26th July 1896 on this subject is submitted to Government for information and favor of return.
