REVENUE BOARD OFFICE MADRAS.

# Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture).

*Dated* 27" February 1897.

No. 1537 Mis:

READ ~~the~~ following letter from the Collector of Kurnool dated 20" February 1897 Tour Dis: No: 309 of 1897 :-

In forwarding herewith statement No: 1 prescribed in Govern-ment Order No: 751 Rev: dated 26" December 1896, I have the honor to state that as already pointed out in my letter T. Disposal No: 301 / Eng: of 1897 dated 18" February 1897, the Code standard task for ~~earth~~ earthwork appears to me to be too high for the coolies of this district. It was in my opinion on account of the unduly high task that the coolies employed in cutting side drains on the Pattikonda-Molagaval-li station road work were liable to the heavy fines shown aginst their gangs in spite of the fact that they had during the fortnight been transferred from "B" to "C" class. The action of the Overseer in charge in paying these workers minimum wages instead of allowing them to feel the full effect of the fining to which they were liable for failure to turn out the prescribed task, has under the circumstances my full approval.

2. I regret to state that statement No: II cannot be submit-ted at present, as the necessary information has not been received from the Overseers in charge of the several works in spite of strict orders on the subject.

Resolution

The statements will be submitted for the information of Government.

2.

2. The Collector has already been instructed to raise the class and to reduce the task of the relief workers at Pattikonda under G.O. 108 dated 19" February 1897.

3. The Executive Engineer should lose no more time in revising the tasks for cutting the side drains, which is evidently too high.

4. It should be explained why the workers at Allagadda were placed in Class A instead of B, to which class most applicants for relief naturally belong.

# PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read G.O.mis No. 1765

G.O.mis No. 1338 dy 10 March 97

Recorded

The figures given for the Nandyal B gang are obviously inaccurate. The following points also require explanation:

(i). The figures in the Statement for the C gangs cutting side drains on the Owk-Banganapalle road and on the Ramapuram section of the Owk-Sadasivaraidu road

Note. The reduction of the task referred to in para 3 of the G.O. has already been ordered by the Collector as will have been seen from previous current. C. dy 1.3.97 Any remarks that the Govt has to make on the point may be made when dispatching of mail current.

The Statement enclosed shows the work of ~~Hargapuram~~ 16 sets of gangs:—1 set of class A, 5 sets of class B, & 10 sets of class C. Calculating the unit tasks from the figures given a task of 11.84 c:ft per child unit. The task for the C gangs digging gravel on the Maddikera-Nanchala Rly Station road appears to have been calculated 6.2 c:ft per child unit. These are higher than the highest of the Code tasks for the above descriptions of work

(ii) On the other hand the Pattikonda gangs engaged in collecting metal appear to have been allotted tasks considerably short of the Code Standard.

(+8.5 c:ft respectively)

Sd/ 11/3/97.

Sd/ 13/3/97

To the Board (Settl) Dis. 12-8-97

C. 5/3/97.
R. 10/3/97

given me get the following results.
on the supposition that all the figures relate to a single day

| Gang. | Kind of work. | unit task allotted c.ft | Cub. Metre. | Equivalent Code task c.ft |
|---|---|---|---|---|
| A. 1. | Digging + breaking metal | 2.75 | 83 p.c. | 2.5 to 4 |
| B. 1. | Digging + heaping gravel | 6.5 | Full. | 6.75 ✓ |
| B 2. | Collecting metal | 1.33 | Full | 1.88 to 3 ✓ |
| B. 3. | Breaking + Shooting metal | 1.2 | Full | 1.88 to 3 ✓ |
| B. 4 | Collecting metal | 1.77 | Full. | 1.88. ✓ |
| B 5. | The figures given are obviously incorrect | | | |
| C 1 | Digging gravel | 6.2 | Full | 4.5 |
| C. 2 | Collecting metal | 0.96 | Full | 1.25 ✓ |
| C. 3. | Breaking + Shooting metal | 1.0 | Full | 1.25 ✓ |
| C. 4 | cutting side drains | 6.75 | Less than half | 1.15, 6.5, 8.37 |
| C. 5 | Do | 6.7 | 84 p.c | Do |
| C. 6 | Collecting metal | 1.25 | 96 p.c | 1.25 |
| C. 7 | cutting side drains | 8.5 | 85 p.c | 1.15, 6.5, 8.37 ✓ |
| C. 8 | Breaking metal | 1.25 | Full. | 1.25 |
| C. 9 | Collecting metal | 1.2 | Full | 1.25 |
| C. 10 | Cutting side drains | 11.84 | Full | 1.15, 6.5, 8.37 ✓ |

3. In the cases of A.1, C.4, and C.5, the unit task allotted is between the highest and the lowest Standard tasks of the Code + may be due to ~~the~~ some of the gangs working on hard ground and some on soft earth.

In the case of all the B gangs & of C.2 + C.3 gangs the unit task was less than the Code task, & less than the lowest of the Code tasks. All these are Pattikonda gangs with the exception of B 4, but not the Pattikonda weekly laborers reported on by the Sanitary Comm'r

Yes. The proposed drop order may issue.

JS
7/3/97

R.H
9.3.97

In the case of C.1, C.7, & C.10 gangs the unit task was higher than the highest of the Code tasks. Possibly there is a misdescription of the work.

RS 2-3-97 The net result of this is that the Code task as within ~~any~~ measurement except in case of cutting side drains perhaps
