BACK PAPERS.

G.O.	No.	Department.	Date.

FURTHER PAPERS.

G.O.	No.	Department.	Date.

The petition state as follows:-

The channel irrigating the petitioners' village does not contain enough water to irrigate the whole village. In consideration of this fact the rates of assessment imposed on the lands in the settlement of 1860 were:-

Wet lands - 1st crop - Rs 5 per acre.

Do 2nd " - Rs 1/2 per acre.

Wet lands to which water was baled out } - Rs 1/2 per acre.

As the soil was not good, the channel above referred to was included in class 3. At the recent settlement however no notice was taken of the above facts and the assessment was imposed at the following rates:-

Wet lands - 1st crop - Rs 10 per acre.

Do 2nd crop - Rs 5 to Rs 9 per acre.

Wet lands to which water was baled out } - Rs 8 to Rs 10 per acre.

Top lands of the 6th class which were originally assessed at Rs 1 per acre have now been assessed at Rs 3 per acre. The petitioners requested the Board of Revenue to considerably reduce the above high rates and receives an order (enclosed) from the Deputy Commissioner of Patil No. 11 stating that a little reduction of assessment had been effected. The result of the heavy assessment is that in the case of some lands the petitioners obtain just enough to cover the assessment while in that of others the return is so poor that the petitioners have to raise loans and pay assessment in any case nothing is left for the maintenance of the petitioners. Under the circumstances they pray that the heavy assessment may be reduced.
