From H.C.R. Harley Esq
L.J. Dt. Engineer
Cuddapah Dt

To The Collector of
Cuddapah

Sir

With reference to your
footnote dis. No. 30 Tour of 97 dated 22nd
January 1897, to the Proceedings of the
Board of Revenue No. 33 dated 14th
January 1897, I have the honor to state
that during the short time I was in
charge of the Relief works the follow-
ing were noted by me.

2. In the task laid down for metal,
the removal of the upper soil is not al-
lowed for, so that the required tasks
could not be done, at the Bollavaram
quarry the men were carefully
watched and as the task could not
be done viz 3. c. ft of metal per unit
by a gang especially formed of 10 men,
60 Women and 30 children. The task was
reduced by 1/3 and 2 ft per unit was

the task as modified will have to be allowed

REVENUE BOARD OFFICE MADRAS

Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture.)

Dated 11th March 1897.

No. 1828 Miscellaneous.

READ ..... the following letter from the Collector of Cuddapah, dated 6th March 1897 Disposal No 1651 Rev:

Adverting to Board's Proceedings No 150 Mis, dated 7th January 1897, calling for an Explanation as to why the task in the Bollavaram quarry was reduced by one-third, I have the honor to forward herewith a copy of the Local Fund Engineer's letter Disposal No 248 of 1897 dated 26th February 1897

* communicating to the Cuddapah Collector C.T.O. R. & calling for Explanation why the task in the Bollavaram quarry has been reduced by one-third (No 1828 Mis dy 2-1-97)
A. plan

1897 and to state that the task prescribed in form A, appendix III of the Examine code is only for "breaking and stocking metal"; but in Bollavaram quarry excavation of top earth had to be made before metal could be had and no provision having been made for this in the Examine code, the task was revised by the Engineer and it was approved by Mr. Forbes. The Bollavaram quarry does not appear to have been worked in 1891.

2. In the old famine code, the constitution of a typical gang for "breaking and stocking road metal" was stronger than the typical gang adopted in the revised famine code, while the task allotted for B class labourers was lighter in the old code, as shown below:-

	Men.	Women.	children.	Task required for stone
Typical gang according to the old code.	12	60	28	486 c.ft
..... Revised code.	10	60	30	569.7 c.ft

3. I understand that Mr. Forbes, who was Acting Collector, when the works were started, inspected the gangs working in breaking and stocking metal and found that the task demanded of them was excessive inasmuch as no allowance was made in the standard task for digging and removing the top-earth and accordingly ordered the reduction of the task to 2 cubic feet per unit.

Resolution.

Resolution.

Submitted to Government with reference to Government Order No. 1 Press dated 2nd January 1897.-
