READ... the following letter from the Collector of
Madura, dated 31st January 1897 R m Cro.
4822
-96 of 97:-

I have the honor to Submit the following proposals for addition of Establishment required in connection with the working of the Periyar Project in the Madura Taluk.

2. From the Enclosed Statement, it will be seen that there are 10 villages Commanded by the Project in the Madura Taluk. The additional work to be done in these villages is (1) the Calculation of the enhanced Assessment⁴ on existing wet lands, not already in the 1st group; (2) Maintaining register of durkhasts and applications for Periyar water

water under the water-rate rules; (3) remission to be granted on account of lands not cultivated with wet crops out of those newly assigned on darkhast; (4) maintenance of accounts for the collection of water rate on whole Inam and Zemin villages; and (5) checking calculation of Faslijasti and Zirwajasti cases in village account no. 6.

3. As regards item 1, the Curnum has to calculate the enhanced assessment on each Survey field and Subdivision of a field and the difference between the enhanced and the existing assessment. Each entry has to be checked by the Taluk Establishment and compared with the Sort and class of Soil entered in the Settlement Register and care taken to see that it is brought to account in village accounts nos 10 and 12. As there are 27,430 entries in which the calculation has to be checked by the Taluk Establishment, this will occupy the time of one clerk for three months.

4. Another clerk will be required for the maintenance of a register of darkhasts,
of

of which more than 400 cases have been disposed of up to date; and for calculating water rate on dry lands supplied with the Periyar water. For the latter purpose, the applications for Periyar water and the orders thereon have to be entered in a register and the orders communicated to the village officers and the parties concerned. At a jamabandi, it must be seen that all such cases are duly brought to account in the Village Accounts. The number of applications for water during this fasli is estimated to be 600.

5. There will also be considerable work in connection with the maintenance of the Taluk Accounts for fixing and collecting water rate for the whole Inam villages supplied with Periyar water. In consequence of the Project, correspondence in the Taluk office has increased as all information has to be furnished to the higher officers and their orders carried out through the Taluk.

6. The foregoing will give some idea of the amount of extra work thrown on the Taluk Establishment. Tahsildars have repeatedly brought

4. Brought to notice that even the ordinary work of the Madura Taluk is found to be too much for the existing strength of the Establishment.

7. For these reasons, I beg to recommend that 3 clerks on the following scale may be sanctioned for the Madura Taluk for five months from 1st February to 30 June next.

1 Clerk on Rs 20 -- --

2 clerks on Rs 15 -- -- each

A proposition Statement in duplicate in the prescribed form is enclosed.

8. The Melur Taluk Establishment will also require some additional help. I have called upon the Deputy Collector to submit proposals and shall address the Board ^{separately} on the subject.

Resolution

Submitted for the orders of Government.

2 The Collector of Madura proposes to entertain 3 temporary clerks one on Rs 20 and 2 on Rs 15 Each for 5 months in the Madura
