Resolution.

With reference to the G.O.read above,the Board submits that the figures given in the General Administration Report are correct and that the difference between them and the Financial and Commercial statistics as regards Land Revenue receipts of --- 1895-96 is due to the fact that the Administration Report includes adjustments carried out after the end of the year,but at a later date than 3rd June 1896 when the figures for the Commercial and - Financial statistics were furnished by the Board.Further correc-- tions made in the Land Revenue receipts have since been reported by the Accountant General and the figures for 1895-6 as finally - revised are given in tens of Rupees in col.3 of the accompanyin - statement.For easy reference the correct area in square miles,as given in statistical Return C,appended to the General Administration Report,is also given in col 3 of the same statement;the difference of 1 sq.mile pointed out by the Govt.of India being due to the rounding off of a fraction of a square mile in the entry ---- against Tanjore.This entry should be 3709 and not 3710 as given in the Tables furnished for the Financial & Commercial statistics.
