2. ~~Subject~~ With reference to para 3. The draft order on a recent report from the Sanitary Commissioner (now in circ) directs that circle inspectors should be appointed in certain tracts of Humeel and in the adjoining taluks of Alur & Adoni ^{in Bellary} where it was considered that village relief was necessary. 1. With regard to para. 1, I do not think the class
should be lowered, but that the task should be
reduced. I repeat what I said in my Note of
27.2.97 in Current No. 856, that the fullest
discretion should be given to Collectors to put
in practice Clause No. 107 of the Code.

2. Circle Inspectors will be required everywhere
in the affected districts, and they should be
allowed wherever Collectors ask for them. I have good cause

2. Unconvinced by the Commission with the U.P. in this
to boards (sett) that it is now incumbent to lower the
Class of (the) pay that has to come to the work from a
distance. The fullest possible discretion should be
given to collectors to reduce the tasks in such cases
under Section 107 of the Code.
3. Circle Inspectors will probably be required in all the affected
districts and will be allowed wherever the Collectors show
good cause for their appointment

G.O. dated 15th February 1897, No. 94 Revenue.

Resolution

Communicated to the Collector of
Anantapur for information and guidance.
2 In Communicating G.O. No. 43 Revenue
dated 26th January 1897 to collectors, the Board
has already pointed out that the plan of
reducing the class of a gang - say from
B to C class - reduces its wage to what was
regarded by the Madras Government in
1892 as a mere subsistence wage; and
not a working wage; whilst the D class
wage was held to be only suitable as "a
penal wage".

The reduction of the task is, it has been already pointed out, encompassed by such formalities that it may take too long to effect this to guard against undue hardship to the workers.

3. The attention of the Collectors of all affected districts will be drawn to the instructions given in para 3 of the G.O., which should be acted upon whenever necessary. It will, however, be pointed out to Government that, in order to secure proper control over such kitchens, and the admissions thereto, the organization contemplated in Section 75 of the Famine Code should be gradually perfected.

The Revenue Inspectors have full work at present in connection with remission and loan work, and the Board respectfully requests that the Government will be pleased to reconsider the orders given

3. When many workers come from a distance, a kitchen for their children might be established near their village.
