1st. The assessed value of land in the village of Bellary

C. 22/3/97

If the market value of the land referred to, has been calculated independent of the assessment, the capitalized value of such assessment should be added to the market value, for the purpose of determining whether ~~the grant of the land~~ ^{the grant of the land free of assessment} is within the powers of sanction of the local Govt. In the ~~present~~ case the grant ~~being for~~ ^{being for} a site for a municipal hospital, laid up to the value of Rs 3000 maybe granted. ^{by a local Govt.} In the present case the market value of the land is reported to be only Rs 780-7-2 and as the capitalized value of the assessment thereon is not likely to exceed Rs 30 or Rs 40, there can be no doubt that this Govt. is competent to sanction the grant. Hence the draft.

Note for the Secy
The point was not overlooked.
I noticed it & thought over it; but the collector's recommendation in the concluding portion of his letter that the land might be granted free of assessment led me to believe that the land would be liable to assessment. I thought that at least the point was not free from doubt.
