FOR ORDERS.Rainfall.

There has been generally rain throughout Ganjam, Chikara receiving 5 inches fall; has generally been heavy to the south of the Ceded districts. From Vizapatnam no report has been received, but the rain there, has also properly been generally general, for it has spread over the Godavari & Krishna. The whole of Godavari district has received heavy rain and there have been useful showers in Krishna. Markapur, in Kurul, has received 1.62 inches. There has been no rain in Bellary and Anantapur; but Liddapur has received some scattered showers. In Pakala, in Nellore, there

there has been a heavy fall of 3 in. parts of Chingleput and North Arcot have also received some useful showers, 1.30 in. having fallen at Arkonum. There have been scattered showers in the South of the Presidency over an inch in some places.

Public Health:

Public health is generally good. Cholera shows no signs of increase and the affected districts still remain free from the disease.

Prices:

Prices have fallen in 8 districts, risen in 7 and are stationary in 8. Prices show a fall on 21 quotations, a rise on 26, Stationary at 24 out of 71.

Rice is nowhere above the scarcity rate. Even in the Deccan districts, rice is ^{only} 30 per cent. higher than the average. Raji is nowhere above the scarcity rate, but its price is more than 50 per cent.

FOR ORDERS.

50 per cent above ordinary. Chola is above scarcity rate only in the four Deccan districts. In Bellary, the price of Chola is 12.2 against normal of 29. Cumbu is above scarcity rate only in the Deccan districts. It shows a rise in price ^{weekly} over 150 per cent.

Works:

The numbers on works in the Deccan show this week an increase of nearly 10,000. The numbers in Vizafatnam & Arcanis have not been reported. The numbers of weavers relieved show a fall of about 400 in the Deccan and those on gratuitous relief a rise of about 600. The increase on works is probably due to the approach of the hot weather and to the easier terms on which relief is now given.

Drinking-water:

Drinking water except perhaps in parts of Bellary and Anantapur, no longer causes anxiety.

anxiety.

Prospects

Gangam reports general prospects much improved. Water supply much improved especially in subdivisions by recent rains. Godavari reports season not unfavourable; no test works started. Krishna reports prospects generally fair. Kurnool; Bellary make no remark as to prospects; while Anantapur reports them unchanged. Cuddapah makes no report. But in the rest of the Presidency prospects are reported ^{rather} ~~rather~~ ^{rather} fair.
