It enters the reserve at the south-east corner of survey No. 189 of Kamanadoddi; runs in a south-easterly direction for about five and a half furlongs and quits the reserve near the south-west corner of survey No. 218 of Duddi.

(11) Cart-track from Kamanadoddi to Chirtanakallu allowed up to a width of six yards for men, cattle and carts to pass. It enters the reserve at the south-eastern corner of survey No. 277 of Kamanadoddi; runs in an east-north-easterly direction for about four and a half furlongs and quits the reserve on the southern side of survey No. 294, about one and a half chains west of its south-east corner.

(12) Foot-path from Karani to Kosigi allowed up to a width of one yard for men to pass. It enters the reserve near the trijunction stone of Tippaladoddi, Kamanadoddi and Karani; runs in a northerly direction for about five and three-quarter furlongs and joins the Tippaladoddi-Kosigi foot-path in survey No. 184 of Kamanadoddi.

II. Right of worship at the Anjaneyaswami's temple is allowed to the public. The temple which is eleven yards long and eleven yards broad in survey No. 189 of Vandagallu is excluded from and allowed to remain as an enclosure within the reserve with right of way to it over foot-path No. 5.

NOTE.—The above foot-paths are allowed for men to pass and the cart-tracks and high road for men, cattle and carts, &c., to pass.

2. His Excellency the Governor in Council is further pleased to appoint Mr. E. A. Smith, to be the Forest Settlement-officer who shall inquire into and determine the existence, nature and extent of any right claimed by, or alleged to exist in favour of, any person in or over the land comprised within the limits given in the above schedule or to any forest produce of such land, and to deal with the same as provided in Chapter II of the said Forest Act (V of 1882).

3. He is further pleased to appoint the District Forest-officer of Nellore to be the Forest-officer who shall attend on behalf of Government at the inquiry made by the above-mentioned Forest Settlement-officer.

4. His Excellency the Governor in Council is further pleased, under the authority vested in him by section 14 of the said Act, to appoint the Collector of Nellore to hear appeals from any orders passed by the Forest Settlement-officer under sections 11, 12 and 13 of the said Act.

Remarks I.—Public rights of way are allowed over the following cart-tracks and foot-paths:—

(1) Foot-path from Tippaladoddi to Vandagallu allowed up to a width of one yard for men to pass. It enters the reserve at a point on the boundary between Vandagallu and Karani, about one and a half furlongs due south of the trijunction stone of Duddi, Vandagallu and Karani, runs in a south-easterly direction and quits the reserve about one and a half chains [illegible] through the reserve in an east-north-easterly direction and quits the reserve near the south-west corner of survey No. 118 of Vandagallu. Its length within the reserve is about one mile, five furlongs.

(3) Foot-path from Chirtapalli to Vandagallu allowed up to a width of one yard for men to pass. It enters the reserve on the eastern boundary of Mallanahatti near the fourth boundary stone counting towards north-west from the trijunction stone of Vandagallu, Zumaladinne and Mallanahatti, passes in a north-easterly direction and quits the reserve on the western side of survey No. 146 of Vandagallu, about three chains north of the south-west corner of survey No. 146. Its length is about four and a quarter furlongs.

(4) Foot-path from Vurukunda to Vandagallu allowed up to a width of one yard for men to pass. It enters the reserve on the boundary line between Vandagallu and Zumaladinne, about a furlong to the south-east of the trijunction stone of Vandagallu, Zumaladinne and Mallanahatti; runs in a north-easterly direction for about five and a quarter furlongs and quits the reserve at the south-east corner of survey No. 166 of Vandagallu.

(5) Foot-path from Vurukunda-Vandagallu foot-path to Anjaneyaswami temple allowed up to a width of one yard for men to pass. It branches from the above foot-path in survey No. 189, about eleven chains from its point of entrance and leads to the temple in a westerly direction running two chains.

(6) Foot-path from Duddi to Vandagallu allowed up to a width of one yard for men to pass. It enters the reserve on the southern side of No. 341, about seven chains west of the south-east corner of that number; runs in a southerly direction for about five furlongs and quits the reserve at the northernmost corner of survey No. 436 Vandagallu.

(7) Cart-track from Karani to Duddi allowed up to a width of six yards for men, cattle and carts to pass. It enters the reserve, about one and a half furlongs to the west of the trijunction stone of Duddi, Karani and Vandagallu on the northern boundary of Karani; runs in a north-easterly direction for about six and a half furlongs and quits the reserve on the eastern boundary at a distance of about two and a half furlongs to the north-west of the south-west corner of survey No. 340 of Duddi.

(8) Foot-path from Kamanadoddi to Duddi allowed up to a width of one yard for men to pass. It enters the reserve on the southern side of survey No. 226 of Kamanadoddi, about four chains west of the south-east corner of that number; runs in a south-easterly direction for about four and a half furlongs and quits the reserve on the western side of survey No. 190 of Duddi, about five chains south of its north-west corner.

(9) Foot-path from Tippaladoddi to Kosigi allowed up to a width of one yard for men to pass. It enters the reserve about two chains to the south of the southernmost corner of survey No. 168 of Kamanadoddi; runs in a north-easterly direction for about five furlongs and joins the Halwi-Kosigi high road near the north-west corner of survey No. 180 of Kamanadoddi.

(10) High road from Halwi to Kosigi comprises portions of survey No. 188 of Kamanadoddi and survey No. 231 of Duddi. It is allowed for men, cattle and carts to pass. It enters the reserve at the south-east corner of survey No. 189 of Kamanadoddi; runs in a south-easterly direction for about five and a half furlongs and quits the reserve near the south-west corner of survey No. 218 of Duddi.

(11) Cart-track from Kamanadoddi to Chirtanakallu allowed up to a width of six yards for men, cattle and carts to pass. It enters the reserve at the south-eastern corner of survey No. 277 of Kamanadoddi; runs in an east-north-easterly direction for about four and a half furlongs and quits the reserve on the southern side of survey No. 294, about one and a half chains west of its south-east corner.

(12) Foot-path from Karani to Kosigi allowed up to a width of one yard for men to pass. It enters the reserve near the trijunction stone of Tippaladoddi, Kamanadoddi and Karani; runs in a northerly direction for about five and three-quarter furlongs and joins the Tippaladoddi-Kosigi foot-path in survey No. 184 of Kamanadoddi.

II. Right of worship at the Anjaneyaswami's temple is allowed to the public. The temple which is eleven yards long and eleven yards broad in survey No. 189 of Vandagallu is excluded from and allowed to remain as an enclosure within the reserve with right of way to it over foot-path No. 5.

Note.—The above foot-paths are allowed for men to pass and the cart-tracks and high road for men, cattle and carts, &c., to pass.

Board of Revenue (Land Revenue), Forset No. 59, 8th February 1897.

PROCEEDINGS OF THE BOARD OF REVENUE
(Land Revenue).

Read—again the following Proceedings of the Board of Revenue (Land Revenue), Forest Mis. No. 1119, dated 20th October 1892:—

Read—the following letter from R. SEWELL, Esq., Collector of Bellary, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Northern Circle), dated 5th June 1892, No. 559-1243:—

I have the honour to submit herewith the Adóni Division Deputy Collector's report, with its enclosures, regarding the final settlement of the Kosigi reserve in Adóni taluk, and to request that they may be transmitted to Government for the issue of the final notification under section 16 of the Forest Act of 1882.

2. The settlement was completed before the end of 1889 and the delay in the submission of final report is explained by the Deputy Collector and Forest Settlement-officer as due to the pressure of more important and urgent works in other departments. The delay cannot be called satisfactory.

3. The 1st September may be fixed as the date from which the reservation may take effect.

4. The sketch-map and area statement are enclosed.

Enclosure No. 1.

From M.R.Ry. K. SUBBARAYADU PANTULU Garu, Deputy Collector, Adóni Division, to the Collector of Bellary, dated 18th May 1892, No. 588.

I have the honour to submit, for transmission to Government, a draft notification under section 16 of the Madras Forest Act V of 1882 in respect of the proposed Kosigi reserved forest, which was notified under section 4 of the Act at page 605 of the *Fort St. George Gazette*, dated 30th September 1884, and republished in the District Gazette forest sheet, dated 15th October 1884. The proclamation under section 6 of the Act issued by the Head Assistant Collector of Bellary, who was originally appointed Forest Settlement-officer, was published in the District Gazette, dated 3rd November 1884. Similar notices were also served on all the owners or occupiers of the fields included in or adjoining the lands proposed to be constituted reserved forest in the manner prescribed in paragraph 2 of section 4.

2. All the claims preferred in respect of this block were settled by my predecessor M.R.Ry. D. Anantayya Garu, who had inspected and perambulated its boundary and the final judgment was passed by me.

3. In all twenty-nine claims were presented, of which four were for rights of way and for a temple right and all the rest for occupied lands. All the claims were admitted.

4. In the final judgment it has been stated that survey field No. 226 of Kamanadoddi was excluded, being at the edge of the reserve. This field, however, does not appear to have been included in the originally notified area at all, being a private land situated at the edge of the reserve, nor has the owner of the field preferred any claim for the field. The karnam of the village having, apparently by mistake, shown the field in question as included in the reserve in a statement prepared by him, it seems that it was stated in the final judgment that it was excluded being at the edge.

5. A signed copy of the B. register of claims disposed of and a sketch-map are also enclosed.

Enclosure No. 2.—B. Register.

Enclosure No. 3.—Draft notification.

Enclosure No. 4.—Area statement.

Enclosure No. 5.—Sketch-map.

Endorsement by E. D. M. HOOPER, Esq., Acting Conservator of Forests, Northern Circle, dated Vizagapatam, 2nd July 1892, No. 786.

Forwarded.

Resolution—Forest Mis. No. 1119, dated 20th October 1892.

The forest settlement papers received with the letter read above will be returned to the Collector for revision with reference to the following remarks:—

(i) The description of the rights of way admitted within the reserve is given differently in the B. register and in the draft notification. The two documents should be made to agree in all particulars in this respect.

(ii) Moreover, it is not stated in either of these papers to whom the several pathways are admitted. The omission should now be supplied..

(iii) The authority sanctioning the exchange has not been given in the case of lands acquired for the reserve. This should now be done.

(iv) The claims are not entered in the order of their decision as they ought to be. For instance, the decision on claim No. 11 is dated 17th January 1887, while the next claim bears a decision dated 25th April 1886; so also in claims 18 and 19, 23, 24 and 25.

(v) A few pencil alterations have been made in the boundary description. They should be verified and corrected, if necessary.

(vi) There is a difference between the taluk area as entered in the Collector's area statement and that given in Board's Proceedings (Revenue Settlement, Land Records and Agriculture), No. 64, dated 11th February 1888. This should be explained and the figures under column 6 of the area statement corrected with reference to the recently notified areas.

2. The Collector is requested to revise the papers and retransmit them at an early date.

Secretary.

Copy to the Conservator of Forests, Northern Circle.

READ—again the following Proceedings of the Board of Revenue (Land Revenue), Forest Mis. No. 28, dated 10th January 1894:—

Read—the following letter from R. SEWELL, Esq., Collector of Bellary, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Northern Circle), dated 18th October 1893, No. 1980:—

I have the honour to submit herewith a revised draft boundary notification and revised B. register of claims for the Kosigi reserve in Adóni taluk. They were revised with reference to the instructions contained in Board's Proceedings, Mis. No. 1119, dated 20th October 1892. A revised area statement is also herewith sent, and I beg to state that the area of the taluk given in it is the survey area furnished by the Superintendent of Revenue Survey, Madras.

2. The sketch-map of the reserve is returned.

ENCLOSURES NOS. 1 TO 4.—Papers returned with Board's Proceedings, Mis. No. 1119, dated 20th October 1892.

Endorsement by A. W. PEET, Esq., Conservator of Forests, Northern Circle, dated Gokaram, 27th October 1893, No. 1513.

Resolution—Forest Mis. No. 28, dated 10th January 1894.

The settlement papers of the Kosigi block, revised and received with the letter read above, will again be returned to the Collector of Bellary for rectification with reference to the remarks made below:—

(i) (*a*) *Claim* 1.—The local names of the nallas referred to in the description of path No. 2 should be given.

(*b*) As paths Nos. 2 and 3 run through the reserve close to each other, it should be reported if one of them can be closed without causing inconvenience to the public.

(*c*) The above remark applies also to paths 4 and 5 of the same claim.

(ii) (*a*) *Claim* 4.—The Deputy Collector is not competent to sanction exchange of land under rule 12 of the forest settlement rules. In all cases of fresh grant of lands for those acquired for the reserve, the particulars regarding the paimash or survey number and extent of fields and the villages to which they belong should be entered in the register, noting at the same time whether the exchange is made out of reserved or unreserved lands.

(*b*) Moreover, the numbers of fields in the claim register in this as well as in other claims, for which exchanges are sanctioned in Board's Proceedings, Mis. No. 1795, dated 9th July 1887, do not tally with the particulars in the Board's Proceedings. The corresponding paimash numbers and extent should also be given in the register so as to agree with the particulars of fresh grant already sanctioned.

(iii) In paragraph 4 of the Forest Settlement-officer's report he refers to some final judgment excluding survey No. 226 of Kamanadoddi from the reserve. What this judgment is cannot be gathered from the settlement records. This field is, however, shown in the sketch-map now submitted as having been included within the originally notified limits and thrown out at settlement.

(iv) The boundary description of the block as notified under section 4 cannot be followed on the map. The high road from Kosigi to Halvi, which is said to form the northern boundary in the initial notification, passess through the heart of the reserve according to the present map. It should be explained how this mistake happened.

(v) In the eastern boundary description of the block a portion of the east side of survey No. 75 of Vandagallu is described as its south side; but in describing path No. 1, the same portion is taken as the east side by fixing the point of entrance of the path for the third time at the south-east corner of the said field. The necessary correction has been made in the boundary description and a few other alterations in pencil have also been made so as to make it concise and definite. These should be duly verified.

2. *Claim* 20.—With reference to the Collector's note appended to the former Forest Settlement-officer's decision on this claim, it is not possible to conceive how the inam in question, which was relinquished so long ago as fasli 1270 (1860–61), happened to stand in the claimant's name in the village accounts at the time of decision (*i.e.*, in 1886) without being noticed by the village or revenue officers. Nor is it understood how the former Forest Settlement-officer, who was himself the Revenue Divisional-officer, himself could have ignored the circumstances of relinquishment; nor can it be gathered from the records how and when the fact of relinquishment was first brought to the notice of the present settlement officer. This fact appears to have also escaped the notice of the District Forest-officer who ought to have contested the claim at the time of the settlement inquiry and no attempt has subsequently been made by him to prefer an appeal to the District Court as required by section 10 (ii) of the Forest Act. The Collector (Mr. Sewell) cannot, under any circumstances, reverse the Forest Settlement-officer's decision in the present case. The land must be acquired under the Act in the usual way; and the Collector should report the names of the officers responsible for the mistake, and, if they are in the district, forward their explanations.

3. An early return of the papers carefully revised in the light of the above remarks is requested.

(True Copy and Extract.)

Secretary.

To the Collector of Bellary, with B register, area statement, draft notification and map.

READ—also the following letter from M.R.Ry. S. RAMU IYER Avargal, Deputy Collector, Adóni Division, to the Collector of Bellary, dated 10th February 1896, Ref. on C. No. 474 :—

Referring to your office No. 3130/6833, dated 18th January 1894 and the correspondence ending with your office No. 4320, dated 11th April last, I have the honour to submit herewith revised B. register and draft notification under section 16 of the Kosigi forest reserve and return the papers received with the first of the above references.

2. *Paragraph* (i) (*a*).—The path referred to does not appear in the revised papers now submitted.

3. *Paragraph* (i) (*b*) *and* (*c*).—Paths Nos. 2 and 4 referred to in the original B. register may be closed without causing inconvenience to the public. I have omitted them in the revised draft notification making the necessary notes in the revised B. register.

4. *Paragraph* (ii) (*a*) *and* (*b*).—Collector's sanction has since been obtained for the exchange of lands involved in claim No. 4 and the fact noted in the revised B. register. In all cases of fresh grant of lands for those acquired for the reserve, the several particulars asked for are now furnished in the revised register.

5. *Paragraph* (iii).—The final judgment referred to is the order which the Forest Settlement-officer, who originally settled the reserve, passed on the conclusion of the settlement. In that document it was stated that land No 226 of Kamanadoddi had been excluded from the reserve as if it were included in the area originally notified under section 4. The land was not at all so included and there was therefore no necessity for an order excluding it. In the sketch map it should not have been denoted in dotted lines. Necessary corrections have been made in the map.

6. *Paragraph* (iv).—I do not know how the mistake pointed out happened. The initial notification was prepared by the District Forest-officer.

7. *Paragraph* (v)—The discrepancy pointed out has been corrected and the boundary description revised.

8. *Paragraph* 2.—With reference to the remark that it is not possible to conceive how the inam in question, which was relinquished so long ago as fasli 1270 (1860-61), happened to stand in the claimant's name in the village accounts at the time of decision in 1886 without being noticed by the village or revenue officers, I beg to submit herewith an extract from my letter, Ref. on C. No. 17, dated 24th January 1895, addressed to you in correspondence branch, in which the circumstances under which the inam relinquishments tendered in fasli 1270 (1860-61) were not given effect to until the last inam settlement which came into operation in fasli 1299. In fact, at the time of the Forest Settlement-officer's inquiry and decision the inam in question, like others of its kind, was being really enjoyed as inam, subject, of course, to the conditions as to service. The fact that in 1270 the inamdars had tendered relinquishments before the then Inam Deputy Collector was not known, and could not have been known to the District Revenue officers, as the inam settlement then conducted never came to pass. It was only when the title-deeds for the enfranchised village service inams were received in 1889 and none were found for some inams on the ground that relinquishments had been tendered in fasli 1270, that the Revenue Department came to know the facts. I therefore respectfully beg to submit that no officer is to blame in the matter. As regards the claim for compensation for the land in question, there was some correspondence and it has been finally decided by you

that the claimants are not entitled to any compensation (*vide* Collector's General Branch No. 860, dated 11th July 1895). In the revised B. register now submitted a note has been made to that effect.

Endorsement by the Collector of Bellary, dated 25th March 1896, Ref. on C.R. No. 2321.

Submitted to the Secretary to the Commissioners of Land Revenue, Madras, in reference to Board's Proceedings (Land Revenue), Forest Mis. No. 28, dated 10th January 1894, through the Conservator of Forests, Northern Circle.

Sub-paragraphs 1 (i) (*a*), (*b*) and (*c*), (ii) (*a*) and (*b*), (iii) and (v) have been replied to by the Forest Settlement-officer.

Paragraph 1 (iv).—It cannot now be traced how the error in the description of the northern boundary arose, but it is possible that the high road from Kosigi to Halwi is an error for the cart-track from Kamanadoddi to Chiratanakallu; this supposition is strengthened by the fact that Muggaladoddi jaghir is referred to which lies to the north of the latter road. In any case the land intended to be affected by the notification was marked on the ground and therefore no land is included in the notification under section 16 that was not intended to be reserved by the notification under section 4. The rough sketch made at the time of selection also shows the block as more or less of the same shape as the block now submitted for notification under section 16 and contains the numbers of the khandams included in the proposed reserve and these tally with the khandams actually settled. A copy of the rough sketch is herein enclosed.

Paragraph 2.—The circumstances under which the claim to survey No. 242 of Kamanadoddi was admitted by the Forest Settlement-officer is explained by that officer. All that now appears necessary is to make a note in the notification and in the register of reserved forests to the effect that the land has been relinquished by the claimant, resumed by Government, and fully assessed by the inam commission, as the Forest Settlement-officer can only admit such rights as the claimant possesses at the time of enquiry, and cannot add to, or strengthen, or perpetuate it farther than what is inherent in the right itself. The fact of the Forest Settlement-officer having admitted the claim, such as it was, before the decision of the inam commission was known, cannot, I submit, prevent the Collector from dealing with the case as he would have done had no forest settlement taken place.

A list of corrections in the boundary description suggested by the District Forest-officer and a statement of area and condition are attached.

ENCLOSURE No. 6.—Rough sketch.

Endorsement by A. W. PEET, Esq., Conservator of Forests, Northern Circle, dated Waltair, 28th March 1896, R. C. No. 1753.

Forwarded.

Reference on the above, dated 17th September 1896, F. R. No. 1264.

With reference to paragraph 5 of the Forest Settlement-officer's reply forwarded with the Collector's letter read above, the Board considers that, as the original Forest Settlement-officer has expressly passed an order on the exclusion of survey No. 226, the details regarding the claim should be entered in the claim register in its proper place and a note by the Forest Settlement-officer added to the effect that the field lies outside the initially notified limits and is therefore beyond the jurisdiction of the Forest Settlement-officer. This course is necessary to make the register complete in itself.

2. *Paragraph* 8 *of Forest Settlement-officer's reply and paragraph* 2 *of Collector's reply.*—The Forest Settlement-officer's decision, as it now stands, is incomplete as the acquisition ordered at settlement in the first instance has not been effected for want of sanction. As, however, it would appear that the Revenue department came to know of the relinquishment of inam field No. 242 only in 1889, the Forest Settlement-officer could not have been aware of it at the time of his decision in 1886. The present Forest Settlement-officer should, in these circumstances, be instructed to supplement his order by a note to the effect that the relinquishment of the inam having been brought to his notice subsequent to the date of the original order, the land in question has been incorporated with the reserve.

3. The corrections suggested by the District Forest-officer in the draft notification have been noted in the register and notification. The point at which path No. 5 in the draft notification branches from item No. 4 has also been fixed by the Board. The Forest Settlement-officer should have them duly verified before re-submission.

4. A very early reply is requested.

and half chains north of the south-west corner of that number. It enters the reserve about five chains to the south of the trijunction stone of Vandagallu, Mallanahatti and Karani, passes through the reserve in an east-north-easterly direction and quits the reserve near the south-west corner of No. 166 of Vandagallu. Its length within the reserve is about one mile five furlongs.
(2) Foot-path from Sulekiri to Vandagallu passes through the reserve close to the above (No. 2) and as it can be closed without causing inconvenience to the public, it is disallowed as ordered in Board's Proceedings, Forest Mis. No. 28, Land Revenue, dated 10th January 1894.
(3) Foot-path from Karani to Vandagallu passes through the reserve close to the above (No. 2) and as it can be closed without causing inconvenience to the public, it is disallowed as ordered in Board's Proceedings, Forest Mis. No. 28, Land Revenue, dated 10th January 1894.
(4) Foot-path from Chintapalli to Vandagallu allowed up to a width of one yard for men to pass. It enters the reserve on the eastern boundary of Mallanahatti near the fourth boundary stone counting towards north-west from the trijunction stone of Vandagallu, Zumaladinne and Mallanahatti passes in a north-easterly direction and quits the reserve on the western side of No. 146 of Vandagallu about three chains north of the south-west corner of No. 146. Its length within the reserve is about four and quarter furlongs.
(5) Foot-path from Mallanahatti to Vandagallu passes through the reserve close to the above (No 4), and as it can be closed without causing inconvenience to the public, it is disallowed as ordered in Board's Proceedings, Forest Mis. No. 28, Land Revenue, dated 10th January 1894.
(6) Foot-path from Vurukunda to Vandagallu, allowed up to a width of one yard for men to pass. It enters the reserve on the boundary line between Vandagallu and Zumaladinne about a furlong to the south-east of the trijunction stone of Vandagallu, Zumaladinne and Mallanahatti, runs in a north-easterly direction for about five and quarter furlongs and quits the reserve at the south-east corner of No. 166 of Vandagallu.
(7) Cart-track from Vandagallu to Zumaladinne is now outside the reserve as the tract through which it passes has been excluded for cultivation purposes.
(8) Foot-path from Vurukunda-Vandagallu foot-path to Anjaneyaswami temple allowed up to a width of one yard for men to pass. It branches from the above foot-path in survey No. 189 of Vandagallu about eleven chains from its point of entrance and leads to the temple in a westerly direction after running two chains.
(9) Right of worship at the Anjaneyaswami temple is allowed to the public. The temple which is eleven yards long and eleven yards broad situated in survey No. 189 of Vandagallu is excluded from and retained as an enclosure within the reserve with access for men by foot-path No. 8 above described.

In continuation of this office, Ref. on C.R. No. 2321, dated 1st November 1896, I have the honour to forward, herewith, the list of corrections returned with Ref. on Forest Register No. 1264, dated 17th September 1896.

ENCLOSURE.—List of corrections.

RESOLUTION—Forest No. 59, dated 8th February 1897.

The settlement records received with the Collector's letter, dated 31st October 1896, have been revised in accordance with the instructions issued in the Proceedings read above, and will be submitted to Government with the recommendation that the draft notification may be approved and ordered to be published in the *Fort St. George Gazette*, the reservation to take effect from the 30th April next.

2. The block lies in the Adóni taluk and comprises an area of 2,733 acres at final settlement.

3. It is observed that a portion of the block on its south side has been excluded at settlement in view to make provision for extension of cultivation.

4. Though the settlement of the Kosigi block was concluded before the end of 1889, the papers had to be returned for revision more than once and they were finally received in the Board's office only at the beginning of November last.

Submitting to Government, for approval and publication in the *Fort St. George Gazette*, draft notification under section 16 of the Forest Act for the constitution of the Kosigi reserve, in the Adóni taluk, Bellary district, as a reserved forest.

C. No. 1550/97.

For orders

Please see the Board's remark in IV of para 1 of its Resolution d. 10.1.94 read in the Current and the Collector's reply thereto. The Collector justifies the publication of the notification in its present form by saying that the boundaries now described were marked on the ground (and all the claims relating thereto have been settled!).

Re: final reservation of a forest block

Orders are solicited as to whether the notification may be published without further reference to the Bd:

The blunders committed in of the most serious description. So far as can be ascertained from the present map, that portion of the block which lies to the north of the Halvi-Kosgi road has never been notified under section 4. - the initial notification was drawn up in the interest of Kanigalla, but appears now legally necessary to proceed de novo to settle the northern portion of the block. The rest may perhaps be notified under Ch. sec. 16

Forest IV. 52.

G.O. No. 186 d/ 19th March 1897.

In its Proceedings read above the Board of Revenue proposes to issue a notification under section 16 of the Madras Forest Act in respect of the Kosigi reserve. Under the terms of the boundary description now forwarded, the reserve includes a considerable area lying to the north of the Halsi-Kosigi road, although in the notification under section 4 ordered to be published in G. O. No. 1047 d/ 16-9-84, that road is clearly mentioned as forming the northern boundary of the block. The Board apparently considers this immaterial in view of the fact that the mention of the high road from Halsi to Kosigi was not improbably a mistake for the cart-track from Kamandoddi to Chiratanakallu.

2. In this view the Govt. cannot acquiesce. Whatever it may have been intended to designate as the northern boundary of the block the terms of the notification under sec. 4 as actually published must form the criterion of the legality of the course now proposed. It follows therefore that the requirements of sec. 4 of the Madras Forest Act have not been legally complied with in so far as relates to the portion of the block which lies to the north of the Halsi-Kosigi road. It is consequently impossible to sanction the issue of the notification as submitted by the Board; there is however no objection

to the exclusion of so much of it as relates to the portion situated to the south of the Hallihi Kosigi road. The notification as amended accordingly will be published in the Fort St. George and Bellary District Gazettes, the 30th June 1897 being entered as the date from which reservation shall take effect.

In regard to the remaining portion of the block it is necessary to issue a notification under section 4 of the Forest Act and to require primâ facie compliance with the provisions of Sec. 4 & 15 of the Act before a notification under section 16 can be sanctioned. The necessary notice has been drawn up in the Post Office and will be published.

Read—again the following Proceedings of the Board of Revenue (Land Revenue), Forest Mis. No. 1119, dated 20th October 1892 :—

Read—the following letter from R. SEWELL, Esq., Collector of Bellary, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Northern Circle), dated 5th June 1892, No. 559-1243 :—

I have the honour to submit herewith the Adóni Division Deputy Collector's report, with its enclosures, regarding the final settlement of the Kosigi reserve in Adóni taluk, and to request that they may be transmitted to Government for the issue of the final notification under section 16 of the Forest Act of 1882.

2. The settlement was completed before the end of 1889 and the delay in the submission of final report is explained by the Deputy Collector and Forest Settlement-officer as due to the pressure of more important and urgent works in other departments. The delay cannot be called satisfactory.

3. The 1st September may be fixed as the date from which the reservation may take effect.

4. The sketch-map and area statement are enclosed.

ENCLOSURE No. 1.

From M.R.Ry. K. SUBBARAYADU PANTULU Garu, Deputy Collector, Adóni Division, to the Collector of Bellary, dated 18th May 1892, No. 588.

I have the honour to submit, for transmission to Government, a draft notification under section 16 of the Madras Forest Act V of 1882 in respect of the proposed Kosigi reserved forest, which was notified under section 4 of the Act at page 605 of the *Fort St. George Gazette*, dated 30th September 1884, and republished in the District Gazette forest sheet, dated 15th October 1884. The proclamation under section 6 of the Act issued by the Head Assistant Collector of Bellary, who was originally appointed Forest Settlement-officer, was published in the District Gazette, dated 3rd November 1884. Similar notices were also served on all the owners or occupiers of the fields included in or adjoining the lands proposed to be constituted reserved forest in the manner prescribed in paragraph 2 of section 4.

2. All the claims preferred in respect of this block were settled by my predecessor M.R.Ry. D. Anantayya Garu, who had inspected and perambulated its boundary and the final judgment was passed by me.

3. In all twenty-nine claims were presented, of which four were for rights of way and for a temple right and all the rest for occupied lands. All the claims were admitted.

4. In the final judgment it has been stated that survey field No. 226 of Kamanadoddi was excluded, being at the edge of the reserve. This field, however, does not appear to have been included in the originally notified area at all, being a private land situated at the edge of the reserve, nor has the owner of the field preferred any claim for the field. The karnam of the village having, apparently by mistake, shown the field in question as included in the reserve in a statement prepared by him, it seems that it was stated in the final judgment that it was excluded being at the edge.

5. A signed copy of the B. register of claims disposed of and a sketch-map are also enclosed.

Resolution—Forest Mis. No. 1119, dated 20th October 1892.

The forest settlement papers received with the letter read above will be returned to the Collector for revision with reference to the following remarks:—

(i) The description of the rights of way admitted within the reserve is given differently in the B. register and in the draft notification. The two documents should be made to agree in all particulars in this respect.

(ii) Moreover, it is not stated in either of these papers to whom the several pathways are admitted. The omission should now be supplied.

(iii) The authority sanctioning the exchange has not been given in the case of lands acquired for the reserve. This should now be done.

(iv) The claims are not entered in the order of their decision as they ought to be. For instance, the decision on claim No. 11 is dated 17th January 1887, while the next claim bears a decision dated 25th April 1886; so also in claims 18 and 19, 23, 24 and 25.

(v) A few pencil alterations have been made in the boundary description. They should be verified and corrected, if necessary.

(vi) There is a difference between the taluk area as entered in the Collector's area statement and that given in Board's Proceedings (Revenue Settlement, Land Records and Agriculture), No. 64, dated 11th February 1888. This should be explained and the figures under column 6 of the area statement corrected with reference to the recently notified areas.

2. The Collector is requested to revise the papers and retransmit them at an early date.

Read—again the following Proceedings of the Board of Revenue (Land Revenue), Forest Mis. No. 28, dated 10th January 1894:—

Read—the following letter from R. SEWELL, Esq., Collector of Bellary, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Northern Circle), dated 18th October 1893, No. 1980:—

I have the honour to submit herewith a revised draft boundary notification and revised B. register of claims for the Kosigi reserve in Adóni taluk. They were revised with reference to the instructions contained in Board's Proceedings, Mis. No. 1119, dated 20th October 1892. A revised area statement is also herewith sent, and I beg to state that the area of the taluk given in it is the survey area furnished by the Superintendent of Revenue Survey, Madras.

2. The sketch-map of the reserve is returned.

Enclosures Nos. 1 to 4.—Papers returned with Board's Proceedings, Mis. No. 1119, dated 20th October 1892.

Resolution—Forest Mis. No. 28, dated 10th January 1894.

The settlement papers of the Kosigi block, revised and received with the letter read above, will again be returned to the Collector of Bellary for rectification with reference to the remarks made below:—

(i) (*a*) *Claim* 1.—The local names of the nallas referred to in the description of path No. 2 should be given.

(*b*) As paths Nos. 2 and 3 run through the reserve close to each other, it should be reported if one of them can be closed without causing inconvenience to the public.

(*c*) The above remark applies also to paths 4 and 5 of the same claim.

(ii) (*a*) *Claim* 4.—The Deputy Collector is not competent to sanction exchange of land under rule 12 of the forest settlement rules. In all cases of fresh grant of lands for those acquired for the reserve, the particulars regarding the paimash or survey number and extent of fields and the villages to which they belong should be entered in the register, noting at the same time whether the exchange is made out of reserved or unreserved lands.

(*b*) Moreover, the numbers of fields in the claim register in this as well as in other claims, for which exchanges are sanctioned in Board's Proceedings, Mis. No. 1795, dated 9th July 1887, do not tally with the particulars in the Board's Proceedings. The corresponding paimash numbers and extent should also be given in the register so as to agree with the particulars of fresh grant already sanctioned.

(iii) In paragraph 4 of the Forest Settlement-officer's report he refers to some final judgment excluding survey No. 226 of Kamanadoddi from the reserve. What this judgment is cannot be gathered from the settlement records. This field is, however, shown in the sketch-map now submitted as having been included within the originally notified limits and thrown out at settlement.

(iv) The boundary description of the block as notified under section 4 cannot be followed on the map. The high road from Kosigi to Halwi, which is said to form the northern boundary in the initial notification, passess through the heart of the reserve according to the present map. It should be explained how this mistake happened.

(v) In the eastern boundary description of the block a portion of the east side of survey No. 75 of Vandagallu is described as its south side; but in describing path No. 1, the same portion is taken as the east side by fixing the point of entrance of the path for the third time at the south-east corner of the said field. The necessary correction has been made in the boundary description and a few other alterations in pencil have also been made so as to make it concise and definite. These should be duly verified.

2. *Claim* 20.—With reference to the Collector's note appended to the former Forest Settlement-officer's decision on this claim, it is not possible to conceive how the inam in question, which was relinquished so long ago as fasli 1270 (1860-61), happened to stand in the claimant's name in the village accounts at the time of decision (*i.e.*, in 1886) without being noticed by the village or revenue officers. Nor is it understood how the former Forest Settlement-officer, who was himself the Revenue Divisional-officer, himself could have ignored the circumstances of relinquishment; nor can it be gathered from the records how and when the fact of relinquishment was first brought to the notice of the present settlement officer. This fact appears to have also escaped the notice of the District Forest-officer who ought to have contested the claim at the time of the settlement inquiry and no attempt has subsequently been made by him to prefer an appeal to the District Court as required by section 10 (ii) of the Forest Act. The Collector (Mr. Sewell) cannot, under any circumstances, reverse the Forest Settlement-officer's decision in the present case. The land must be acquired under the Act in the usual way; and the Collector should report the names of the officers responsible for the mistake, and, if they are in the district, forward their explanations.

3. An early return of the papers carefully revised in the light of the above remarks is requested.

(True Copy and Extract.)

Secretary.

To the Collector of Bellary, with B register, area statement, draft notification and map.

Read—also the following letter from M.R.Ry. S. RAMU IYER Avargal, Deputy Collector, Adóni Division, to the Collector of Bellary, dated 10th February 1896, Ref. on C. No. 474 :—

Referring to your office No. 3130/6833, dated 18th January 1894 and the correspondence ending with your office No. 4320, dated 11th April last, I have the honour to submit herewith revised B. register and draft notification under section 16 of the Kosigi forest reserve and return the papers received with the first of the above references.

2. *Paragraph* (i) (*a*).—The path referred to does not appear in the revised papers now submitted.

3. *Paragraph* (i) (*b*) *and* (*c*).—Paths Nos. 2 and 4 referred to in the original B. register may be closed without causing inconvenience to the public. I have omitted them in the revised draft notification making the necessary notes in the revised B. register.

4. *Paragraph* (ii) (*a*) *and* (*b*).—Collector's sanction has since been obtained for the exchange of lands involved in claim No. 4 and the fact noted in the revised B. register. In all cases of fresh grant of lands for those acquired for the reserve, the several particulars asked for are now furnished in the revised register.

5. *Paragraph* (iii).—The final judgment referred to is the order which the Forest Settlement-officer, who originally settled the reserve, passed on the conclusion of the settlement. In that document it was stated that land No 226 of Kamanadoddi had been excluded from the reserve as if it were included in the area originally notified under section 4. The land was not at all so included and there was therefore no necessity for an order excluding it. In the sketch map it should not have been denoted in dotted lines. Necessary corrections have been made in the map.

6. *Paragraph* (iv).—I do not know how the mistake pointed out happened. The initial notification was prepared by the District Forest-officer.

7. *Paragraph* (v)—The discrepancy pointed out has been corrected and the boundary description revised.

8. *Paragraph* 2.—With reference to the remark that it is not possible to conceive how the inam in question, which was relinquished so long ago as fasli 1270 (1860-61), happened to stand in the claimant's name in the village accounts at the time of decision in 1886 without being noticed by the village or revenue officers, I beg to submit herewith an extract from my letter, Ref. on C. No. 17, dated 24th January 1895, addressed to you in correspondence branch, in which the circumstances under which the inam relinquishments tendered in fasli 1270 (1860-61) were not given effect to until the last inam settlement which came into operation in fasli 1299. In fact, at the time of the Forest Settlement-officer's inquiry and decision the inam in question, like others of its kind, was being really enjoyed as inam, subject, of course, to the conditions as to service. The fact that in 1270 the inamdars had tendered relinquishments before the then Inam Deputy Collector was not known, and could not have been known to the District Revenue officers, as the inam settlement then conducted never came to pass. It was only when the title-deeds for the enfranchised village service inams were received in 1889 and none were found for some inams on the ground that relinquishments had been tendered in fasli 1270, that the Revenue Department came to know the facts. I therefore respectfully beg to submit that no officer is to blame in the matter. As regards the claim for compensation for the land in question, there was some correspondence and it has been finally decided by you

that the claimants are not entitled to any compensation (*vide* Collector's General Branch No. 860, dated 11th July 1895). In the revised B. register now submitted a note has been made to that effect.

Endorsement by the Collector of Bellary, dated 25th March 1896, Ref. on C.R. No. 2321.

Submitted to the Secretary to the Commissioners of Land Revenue, Madras, in reference to Board's Proceedings (Land Revenue), Forest Mis. No. 28, dated 10th January 1894, through the Conservator of Forests, Northern Circle.

Sub-paragraphs 1 (i) (*a*), (*b*) and (*c*), (ii) (*a*) and (*b*), (iii) and (v) have been replied to by the Forest Settlement-officer.

Paragraph 1 (iv).—It cannot now be traced how the error in the description of the northern boundary arose, but it is possible that the high road from Kosigi to Halwi is an error for the cart-track from Kamanadoddi to Chiratanakallu; this supposition is strengthened by the fact that Muggaladoddi jaghir is referred to which lies to the north of the latter road. In any case the land intended to be affected by the notification was marked on the ground and therefore no land is included in the notification under section 16 that was not intended to be reserved by the notification under section 4. The rough sketch made at the time of selection also shows the block as more or less of the same shape as the block now submitted for notification under section 16 and contains the numbers of the khandams included in the proposed reserve and these tally with the khandams actually settled. A copy of the rough sketch is herein enclosed.

Paragraph 2.—The circumstances under which the claim to survey No. 242 of Kamanadoddi was admitted by the Forest Settlement-officer is explained by that officer. All that now appears necessary is to make a note in the notification and in the register of reserved forests to the effect that the land has been relinquished by the claimant, resumed by Government, and fully assessed by the inam commission, as the Forest Settlement-officer can only admit such rights as the claimant possesses at the time of enquiry, and cannot add to, or strengthen, or perpetuate it farther than what is inherent in the right itself. The fact of the Forest Settlement-officer having admitted the claim, such as it was, before the decision of the inam commission was known, cannot, I submit, prevent the Collector from dealing with the case as he would have done had no forest settlement taken place.

A list of corrections in the boundary description suggested by the District Forest-officer and a statement of area and condition are attached.

Enclosure Nos. 1 to 4.—Notification, B. Register, map and list of corrections.

Enclosure No. 5.

Enclosure No. 6.—Rough sketch.

Endorsement by A. W. PEET, Esq., Conservator of Forests, Northern Circle, dated Waltair, 28th March 1896, R. C. No. 1753.

Forwarded.

Reference on the above, dated 17th September 1896, F. R. No. 1264.

With reference to paragraph 5 of the Forest Settlement-officer's reply forwarded with the Collector's letter read above, the Board considers that, as the original Forest Settlement-officer has expressly passed an order on the exclusion of survey No. 226, the details regarding the claim should be entered in the claim register in its proper place and a note by the Forest Settlement-officer added to the effect that the field lies outside the initially notified limits and is therefore beyond the jurisdiction of the Forest Settlement-officer. This course is necessary to make the register complete in itself.

2. *Paragraph* 8 *of Forest Settlement-officer's reply and paragraph* 2 *of Collector's reply.*—The Forest Settlement-officer's decision, as it now stands, is incomplete as the acquisition ordered at settlement in the first instance has not been effected for want of sanction. As, however, it would appear that the Revenue department came to know of the relinquishment of inam field No. 242 only in 1889, the Forest Settlement-officer could not have been aware of it at the time of his decision in 1886. The present Forest Settlement-officer should, in these circumstances, be instructed to supplement his order by a note to the effect that the relinquishment of the inam having been brought to his notice subsequent to the date of the original order, the land in question has been incorporated with the reserve.

3. The corrections suggested by the District Forest-officer in the draft notification have been noted in the register and notification. The point at which path No. 5 in the draft notification branches from item No. 4 has also been fixed by the Board. The Forest Settlement-officer should have them duly verified before re-submission.

4. A very early reply is requested.

Read—the following letter from R. H. CAMPBELL, Esq., Acting Collector of Bellary, to the Secretary to the Commissioners of Land Revenue, dated 5th November 1896, Ref. on C.R. No. 2321 :—

In continuation of this office, Ref. on C.R. No. 2321, dated 1st November 1896, I have the honour to forward, herewith, the list of corrections returned with Ref. on Forest Register No. 1264, dated 17th September 1896.

Enclosure.—List of corrections.

Resolution—Forest No. 59, dated 8th February 1897.

The settlement records received with the Collector's letter, dated 31st October 1896, have been revised in accordance with the instructions issued in the Proceedings read above, and will be submitted to Government with the recommendation that the draft notification may be approved and ordered to be published in the *Fort St. George Gazette*, the reservation to take effect from the 30th June next.

2. The block lies in the Adóni taluk and comprises an area of 2,733 acres at final settlement.

3. It is observed that a portion of the block on its south side has been excluded at settlement in view to make provision for extension of cultivation.

4. Though the settlement of the Kosigi block was concluded before the end of 1889, the papers had to be returned for revision more than once and they were finally received in the Board's office only at the beginning of November last.

Order—No. 186, Revenue, dated 19th March 1897.

Forest No. 52.

In its Proceedings read above the Board of Revenue proposes to issue a notification under section 16 of the Madras Forest Act in respect of the Kosigi reserve. Under the terms of the boundary description now forwarded, the reserve includes a considerable area lying to the north of the Halwi-Kosigi road, although in the notification under section 4 ordered to be published in G.O., No. 1047, dated 16th September 1884, that road is clearly mentioned as forming the northern boundary of the block. The Board apparently considers this immaterial in view of the fact that the mention of the high road from Halwi to Kosigi was not improbably a mistake for the cart-track from Kamanadoddi to Chiratanakallu.

2. In this view the Government cannot acquiesce. Whatever it may have been intended to designate as the northern boundary of the block, the terms of the notification under section 4 as actually published must form the criterion of the legality of the course now proposed. It follows therefore that the requirements of section 4 of the

Madras Forest Act have not been legally complied with in so far as relates to the portion of the block which lies to the north of the Halwi-Kosigi road. It is consequently impossible to sanction the issue of the notification as submitted by the Board; there is, however, no objection to the publication of so much of it as relates to the portion situated to the south of the Halwi-Kosigi road. The notification as amended accordingly will be published in the Fort St. George and Bellary District Gazettes, the 30th June 1897 being entered as the date from which reservation shall take effect.

3 In regard to the remaining portion of the block, it is legally necessary to issue a notification under section 4 of the Forest Act and to require formal compliance with the provisions of sections 4 to 15 before a notification under section 16 can be sanctioned. The necessary notification has been drawn up in the Government office and will now be published.

Remarks I.—Public rights of way are allowed over the following cart-tracks and foot-paths:—

(1) Foot-path from Tippaladoddi to Vandagallu allowed up to a width of one yard for men to pass. It enters the reserve at a point on the boundary between Vandagallu and Karani, about one and a half furlongs due south of the trijunction stone of Duddi, Vandagallu and Karani, runs in a south-easterly direction and quits the reserve about one and a half chains south of the north-west corner of survey No. 11 of Vandagallu, re-enters the reserve on the southern side of survey No. 11, about eighty yards due east of the south-west corner of that number, runs in a south-easterly direction and quits on the western side of survey No. 75 of Vandagallu, about two chains north of the south-west corner of that number. Again re-enters the reserve on the south side of survey No. 75 at a distance of three chains to the east of its south-west corner; runs in a south-easterly direction and finally quits the reserve on the western side of survey No. 104 of Vandagallu, about three and a half chains north of the south-west corner of that number. Its length within the reserve is about five and a half furlongs.

(2) Foot-path from Sulekeri to Vandagallu allowed up to a width of one yard for men to pass. It enters the reserve, about five chains to the south of the trijunction stone of Vandagallu, Mallanahatti and Karani, passes through the reserve in an east-north-easterly direction and quits the reserve near the south-west corner of survey No. 118 of Vandagallu. Its length within the reserve is about one mile, five furlongs.

(3) Foot-path from Chirtapalli to Vandagallu allowed up to a width of one yard for men to pass. It enters the reserve on the eastern boundary of Mallanahatti near the fourth boundary stone counting towards north-west from the trijunction stone of Vandagallu, Zumaladinne and Mallanahatti, passes in a north-easterly direction and quits the reserve on the western side of survey No. 146 of Vandagallu, about three chains north of the south-west corner of survey No. 146. Its length is about four and a quarter furlongs.

(4) Foot-path from Vurukunda to Vandagallu allowed up to a width of one yard for men to pass. It enters the reserve on the boundary line between Vandagallu and Zumaladinne, about a furlong to the south-east of the trijunction stone of Vandagallu, Zumaladinne and Mallanahatti; runs in a north-easterly direction for about five and a quarter furlongs and quits the reserve near the south-east corner of survey No. 166 of Vandagallu.

(5) Foot-path from Vurukunda-Vandagallu foot-path to Anjaneyaswami temple allowed up to a width of one yard for men to pass. It branches from the above foot-path in survey No. 189, about eleven chains from its point of entrance and leads to the temple in a westerly direction running two chains.

(6) Foot-path from Duddi to Vandagallu allowed up to a width of one yard for men to pass. It enters the reserve on the southern side of No. 341, about seven chains west of the south-east corner of that number; runs in a southerly direction for about five furlongs and quits the reserve at the northernmost corner of survey No. 436 Vandagallu.

(7) Cart-track from Karani to Duddi allowed up to a width of six yards for men, cattle and carts to pass. It enters the reserve, about one and a half furlongs to the west of the trijunction stone of Duddi, Karani and Vandagallu on the northern boundary of Karani; runs in a north easterly direction for about six and a half furlongs and quits the reserve on the eastern boundary at a distance of about two and a half furlongs to the north-west of the south-west corner of survey No. 340 of Duddi.

(8) Foot-path from Tippaladoddi to Kosigi allowed up to a width of one yard for men to pass. It enters the reserve about two chains to the south of the southernmost corner of survey No. 168 of Kamanadoddi, runs in a north-easterly direction for about five furlongs and quits the reserve near the north-west corner of survey No. 180 of Kamanadoddi and joins the Halwi-Kosigi high road.

(9) Foot-path from Karani to Kosigi allowed up to a width of one yard for men to pass. It enters the reserve near the trijunction stone of Tippaladoddi, Kamanadoddi and Karani, runs in a northerly direction for about five and three-quarter furlongs and joins the Tippaladoddi-Kosigi foot-path in survey No. 184 of Kamanadoddi.

II. Right of worship at the Anjaneyaswami's temple is allowed to the public. The temple which is eleven yards long and eleven yards broad in survey No 189 of Vandagallu is excluded from and allowed to remain as an enclosure within the reserve with right of way to it over foot-path No. 5.

Note.—The above foot-paths are allowed for men and the cart-tracks for men, cattle and carts, &c.
