B. Is there any reason why
 the Bengal Govt. has fix the

 down? It is of course
 desirable not to have two

 think Govt. has fix
 prices without consulting Madras.

fixed by the Bengal Govt with reference to those prevailing at Howard's in England, and this Govt has undertaken to supply the Bombay and Madras medical Depots at the rates at which the drugs are sold by the Govt of Bengal (vide papers read in G.O.N^o 640-41 d/ 29th Jan^y 1890 and 814^(x) d/ 4th Feb^y 1890) In the case of the Madras medical Depot, the Govt of India no doubt said that the drugs might be obtained from Madras if not more expensive than Dr Knigs considering cost of carriage but it is submitted that there is not likely to be any considerable difference ~~to~~ between the cost of carriage from Madras to Madras and from Calcutta to Madras and that it has always been the practice to charge the same rate for all Govt medical depots. Under the circumstances therefore the Bengal Govt should presumably be allowed to fix the rates as usual.
