READ

following letter from the Acting
Sub Collector of Salem dated
10th December 1896 No 6749 :-
In continuation of this
office letter no 3342 dated 30th
June last, I have the honor
to report that work to the
value of Rs 964 has been executed
to the Morasur Taluk in the
Hosur Taluk, referred to in
Board's Proceedings No 2082 Mis
Revenue Settlement, dated
29th April 1896. The work still
remaining to be done according
to the estimate is mainly
earth

earth work to the extent of 2638 cubic feet and stone revetment to the value of Rs 150.

The earth work is unnecessary and as for the stone revetment, it can not now be carried out as the bank is quite full and stones cannot be carted to the tank on account of standing crops all round. I inspected the tank on the 3rd instant and found it in a safe condition. The stone work may be carried out in the next hot weather.

2. I beg to add that the tank has an ayakut of 225 acres assessed at Rs 1446 and should be in charge of the Public Works Department and I propose that it be transferred to the Public Works Department.

Resolution

Submitted for the information of

of Government, in continuation of Board's Proceedings, No 3479 Dated 14th July 1896.

2. With reference to para 2 of the letter read above, the Chief Engineer for Irrigation is requested, if he sees no objection, to take the necessary action for the transfer of to the Public Works Department of the tank referred to.
