Feb 25 1897

My dear friend
I see from the Gazette
that the P.W.D. is fully
taking up land for field
channels in connection with
the Periyar irrigation. Is this
right? I thought the one
of the purposes with which
the C.M. was allowed an
addl. to C.M. was to
work up the Periyar
irrigation was that these

to 26.2.97

Officers should rep-
hize the construction of
field channels by the
ripts themselves - If this
is not done, it seems to
me that there will be
unhappiness and ex-
penditure -

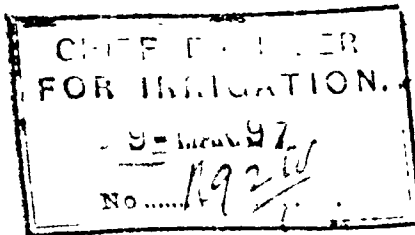

I would also draw
your attention to the extremely
large number of persons
on furlough relief in Saigon

is compared with
the number on works.
It doesn't seem right.

Yours
H

The Hon. Mr. B. S. S. S.
 Penger distributary channels

Note:

In para 7 of his second
 report, printed at page 2 of
 G.O. No. 123 of 19 March 1896
 Mr. Winterbottom wrote thus:
 "If it is asked what part of the
 task of providing distributaries
 should be left to the ryots, the
 'Commissioners would suggest that
 all distributaries intended to
 irrigate 50 acres and upwards
 should be made at the cost of
 Govt. Many of the distributaries
 must pass through two or three
 villages and through long stretches
 of occupied land. The ryots will
 be quite unable to combine to
 make these and it is more expedient
 that the right of passing water
 down the distributaries and of
 controlling the distribution should
 rest in Govt." and this recommend-
 ation was approved by Govt.
 G.O. 6943 - It is for these distributaries
 17-5-96 of this kind
 it is assumed that the land is

* See para 2 of
 the Suppl. Encl. to
 letter of 10.10.96
 3962
 5.10.96

being acquired. The works being in charge of the P.W.D., the notifications issue in that behalf, the Special Dy Colls taking the necessary steps for the acquisition. When the distributaries are completed and fields allotted, the ryots it is submitted will make the field channels.

The foregoing remarks do not apply to one case only the notification relating to the Kalamangalam village p. 242 of the Gazette, which relates to the acquisition of land for a "field channel". - Should the P.W.D. be asked how this notification is to be issued?
To
26.2.97

There are several other cases in which small extents of land are being taken up for field channels - see pages 243, 244 & 249 of the Gazette. Ask how these notifications are to be issued as above

Dei-official letter dated 25th Febr/97 (in original) of the Honourable Mr: Bliss to the Honourable Mr: Grose.

Office Note to the Honourable Mr: Grose and his orders thereon dated 5.3.97.

In reply to Office Note NO: 18, dated 6th March 1897, from the Secy: to Govt: Revenue Department, the undersigned has the honour to state that none of the field channels referred to are intended to irrigate less than 50 acres.
2. These field channels are intended to irrigate from fifty to three hundred acres, and channels irrigating over three hundred acres are called distributaries and are to be maintained by Government.
