Proceedings of the Board of Revenue

(Land Revenue),

Dated 22nd March 1896.

Forest No. 277 Miscellaneous.

READ Government Order, Revenue Department, dated 9th March 1897, No 1318. Ms.

Resolution

In reply to the Government Order read above, the Board submits that the issue of an amended boundary notification is necessitated by the change in the boundary line caused by the exclusion of portions of the Reserve by disafforestation under Section 24 of the Forest Act. It is desirable that a record of the boundaries of the Reserve after the said disafforestation should be available. In this connection the Board solicits reference to Board's Proceedings 1404 Ms, dated 20th October 1896 disposed of in Government Order No 610, dated 11th November 1896. The

Circumstances

Circumstances necessitating the issue of a notification under Section 24 were then explained and it was intimated that the amended boundary notification for the Reserve, when shown of the disafforested portions, must necessarily await the issue of orders under Section 24.

2. The Board takes this opportunity to submit to Government the amended boundary description for the Southern boundary of Bolampatty Reserve No. III which, by oversight, was not forwarded with Board's Proceedings No. 120/187 in G.O. 1318 N. 2 dated 8 February 1897 and requests that the two notifications may be approved and ordered to be published in the Fort St. George Gazette. The revision is, in both cases, necessitated by the exclusion of certain portions of the reserve.

REVENUE DEPARTMENT.

G. No. 2632 of 97.

From

The Board of Revenue, Land Revenue.

Dated 22.1.1897.

FOR ORDERS.

Re: an amended boundary description notification.

Please see note under G.O. 1318 N. 2
9.3.17.

The Board now also forwards the a notification describing the Southern boundary of the Bolampatty reserve No. III as that boundary stands after the exclusion of the portion ordered to be disafforested in G.O. 8/7.1.97.

The reason that the Board gives for the necessity of publishing the notifications in question is that "it is desirable that a record of the boundaries of the reserve after the said disafforestation should be available". This reason, it is submitted, applies ~~and~~ ^{applies} to all cases in general. Orders are therefore solicited.

The Board furnishes no new information in these proceedings. I do not recollect any previous case in which the mere fact that a portion of a reserve has been disafforested has been held to necessitate a revised boundary notification.

Notification. 12/4/97
31.3.97

The notification is unnecessary, but it is convenient & should be sanctioned.

FOR ORDERS.

Read again of 1318 mis
9.3.97
.. also Cno 2632 of 97

of C. mis No. 2029 of 14th April 1897.

The Government considers that
~~though it is unnecessary~~
in cases where a portion on the
margin of a reserved forest is disafforested
under Sec 24 of the Madras Forests Act
~~it is unnecessary~~ to publish a notification
describing the whole or part of the boundary
(of the reserved forest) as it stands after
such disafforestation, if the boundaries
of the portion given up are described with
sufficient precision in the notification
published under Sec 24 of the Madras
Forest Act. yet it is convenient as
pointed out by the Ld. to have a
2nd ~~in the present case however,~~
recd of the boundary of the reserved
~~in consideration of the fact that~~ forest
after disafforestation has been completed
is likely to result from the publication;

H. E. the Governor in Council is pleased
therefore
to sanction the issue of the notifications
describing the east and the south boundaries
respectively of the Bolampatty reserved
forests No II and III. The notifications
will accordingly be published in the
Dart Sligo and Coimbatore & gazettes.
