Proceedings of the Court of Wards,

Dated 7th April — 1897.

No. 571 Misc

READ the following letter from the Collector of Ganjam
No. 292 of 97 dated 16th March 1897.

I have the honor to submit herewith
for the Court's sanction statements
of remissions recommended to be granted
in the Poddakinedi and Bodofodo Estates
for the current year.

2. As usual, no remissions are
recommended for villages rented by
Mactajans.

3. No remissions are recommended
for dry lands as they are reported

to have borne a fair crop generally.

4. The recommendations made in the accompanying statements are restricted to irrigated and rainfed wet lands in the ryotwar and Khosht villages and to Kheta (separate) lands in Mustajari villages in the two Estates.

5. The inspection of crops on these lands was made in detail on the lines laid down for the inspection of crops in the Government villages.

The original inspection was commenced in November by the Revenue Inspectors of the Estates and the crop Inspectors sanctioned in Compt's Proceedings No 16⁴/₃ N. 4. This, dated 30: November 1896. The

Managers of Estates re-inspected 50 per cent of the fields and the divisional officers also checked the work of the Inspectors, and the Managers to some

extent. The crop inspection appears to have been on the whole, carefully made.

6. In 1889, full remissions were granted for waste due to insufficiency of water, or entire loss, and on one anna crop for all irrigated and rainfed wet lands in ryotwar and Khosht villages in the Estates then under the management of the Court of wards in this District. I think lands which have borne only one to two anna crop deserve some concession. In Government Taluk the entire remissions have been recommended this year for one to two anna crops on irrigated wet lands and percentage remissions up to 6 anna crop for rainfed wet lands in villages where 50 per cent of rainfed paddy was less than 6 anna crop. Zemindari lands are not however entitled to similar concessions as are granted in the case of

of Government lands.

7. In Lencindewis moreover there is a fixed rental whatever the number of crops raised may be, where as in Government villages an additional assessment is charged for raising a second crop with the aid of Government water. The two Estates were lately favoured with rains and the ryots have raised crops, such as tobacco, papi, castor, redgram, cholera etc. I therefore propose that remissions be granted on the following scale.

Entire loss of first crop 85 per cent.

0-1 anna 75 per cent.

1-2 anna 50 per cent.

Any less remission than that proposed would render the collection of rents very difficult and vexatious. I have accordingly adopted these rates in recommending remissions in the enclosed statements.

statements. I propose no distinction between the remission recommended for wet and rainfed lands respectively. The remissions recommended to be granted in the Peddakurundi Estate amount to Rs 22,970-8-0; and those in the Andapada Estate amount to Rs 5078-12-0. An abstract of the remissions recommended in each Estate is given below.

Peddakurundi Estate.

	<u>Wet.</u>	
	Assessment Rs - as	Remission Rs - as.

	1,864 — 12	1,535 — "
Grand total	7,029 — 12	5,078 — 12

8. The question of remissions for Khond and Payakali villages in the Bodopoda Estate is under consideration; and

and a separate report will be submitted on this subject later on, if necessary.

Resolution

The remissions proposed by the Collector for the Bodopoda and Padda-Kinsdi Estates are sanctioned.

2. The Collector's attention is drawn to Board's Standing order No 213 (old edition) regarding the use of native terms in official correspondence. The present letter contains far too many native terms, some of which are unknown outside the Ganjam district.
