PROCEEDINGS OF THE BOARD OF REVENUE
(LAND REVENUE).

READ—again the following Proceedings of the Board of Revenue (Land Revenue), Forest Mis. No. 1921, dated 18th December 1895:—

Read—the following letter from the Collector of North Arcot, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Central Circle), dated Satghur, 13th October 1895, T.C. No. 34:—

I have the honour to forward, herewith, draft notifications, area statements, certificates and sketch-map of the marginally-noted reserves of Palmanér taluk of this district for notification under section 4 and to request that you will be good

enough to move the Government to accord its early sanction for their publication in the Fort St. George Gazette.

These proposals conclude forest selection in this district.

ENCLOSURES Nos. 1 to 13.—Certificates, &c.

Endorsement by E. P. POPERT, Esq., Conservator of Forests, Central Circle, dated Madras, 18th October 1895, No. 757.

Forwarded.

Read—the following letter from the Collector of North Arcot, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Central Circle), dated 16th October 1895, Bd. Cur. No. 72:—

I have the honour in continuation of this office Tour Current No. 34, dated 13th instant, to request that you will be good enough to give No. 152 instead of 148 to Totakanama block. The latter number was already given to Musalimadugu extension block (vide Board's Current No. 60, dated 23rd September 1895).

Endorsement by E. P. POPERT, Esq., Conservator of Forests, Central Circle, dated Madras, 23rd October 1895.

Resolution—Forest Mis. No. 1921, dated 18th December 1895.

The papers received with the first of the letters read above will be returned to the Collector for revision and resubmission with reference to the following remarks:—

2. (i) The maps of the four blocks proposed to be reserved are submitted in five sections and no block is located in one single section. Separate maps should be prepared for each reserve and should, as far as practicable, be made handy and cut and mounted on cloth to fold up.

(ii) *Totakanama block*.—This block does not appear to leave sufficient land for extension of cultivation and the free use of the villagers of Totakanama, Feturnattam, Devadoddi and other adjoining villages. To meet the requirements of these villagers and to improve the boundary, the Board has excluded certain portions of the block as marked in blue pencil on the sketch. The Collector is requested to submit an amended notification accordingly and report the correct extent of the block.

(iii) It is observed that the Chittapenta village is enclosed on all its sides by the finally constituted Morthana reserve and the Viriabunda block now proposed. Similarly, the villages of Nallagutlapalli (hamlet of Nellipatla) and Ranghanayakuladinne and Timmayagaripalli are surrounded, or nearly so, by the Viriabunda and the Nellipatla proposed blocks. The Collector is requested to take this opportunity to exclude sufficient land for the free use of these villagers, which does not seem to have been done under the proposals now submitted.

[Reference.—Board's Proceedings, Mis. No. 1921, dated 18th December 1895.]

I have the honour to resubmit the reservation proposals returned by the Board with the above Proceedings.

2. With reference to paragraph 2 (i), the maps in question were forwarded for remounting to the Revenue Survey Department together with a copy of this paragraph. They have been returned, each map containing two blocks instead of one as directed by the Board; but in order to save further delay and as the maps in their present form are not unwieldy, they have been submitted as they are.

3. The orders in paragraph 2 (ii) regarding the alteration of boundary of the Totakanama block have been carried out, a revised draft notification and area statement have been prepared and submitted.

4. (i) In reply to the Board's remarks in paragraph 2 (iii), I have the honour to report as under regarding the population and area of cultivation of the hamlets mentioned and to state that alteration of the line appears to be unnecessary in view of these statistics.

(ii) *Chittapenta village*.—The exclusion of land round the village has already been considered and a disafforestation notification was issued in the *Fort St. George Gazette* (No. 456, dated 10th September 1894), by which an area of 384.36 acres was cut out of the Morthana reserve, in which it is entirely situated for the use and enjoyment of the villagers. The hamlet contains 90 people and the total cultivated area is 25½ acres. If further exclusion is considered desirable, it should be made from the Morthana reserve, as the hamlet and its cultivation adjoin that block and not the present proposal.

The extent of the enclosure is 130 acres and they have also access to the adjoining Ranghanayakuladinne shrotriem which is almost entirely uncultivated as will appear below :—

(iv) *Ranghanayakuladinne*.—This is shrotriem and not a Government village. Its extent is 170 acres.

RESOLUTION—Forest No. 82, dated 26th February 1897.

With his letter disposed of in the Proceedings read above, the Collector of North Arcot submitted proposals for the reservation of the marginally-noted four blocks in the Palmanér taluk. It appeared to the Board that these proposals did not make sufficient allowance for extension of cultivation, and certain alterations in the boundary of the Totakanama block were accordingly effected in view to meet the requirements of the neighbouring villagers. The Collector was at the same time requested to make similar exclusions in respect of the remaining reserves, so as to allow ample provision for the adjoining villages. The Collector now submits a revised draft notification for the Totakanama block, as amended by the Board, and reports that, in the case of the other reserves, no revision of the boundary already proposed is necessary, as all the villages enumerated in the Board's Proceedings quoted above are very thinly populated, and that the margin already allowed for extension of cultivation is sufficient.

2. On the strength of the statistics now furnished by the Collector, the Board resolves to accept the proposals and accordingly submits to Government the draft notifications received with the letter read above for approval and publication in the Fort St. George Gazette.

(i) *Nellipatla block*.—It is observed that there is a small patch of cultivation south of the southernmost point of survey No. 490 of Nellipatla, enclosed in the reserve. It is presumed that it will be dealt with at settlement.

6 BOARD OF REVENUE (LAND REVENUE), FOREST No. 82, 26TH FEBRUARY 1897.

(ii) A statement in the form approved by the Board in its Proceedings, Forest No. 459, dated 2nd October 1896, should have been submitted,

3. It is noted that the present proposals complete the scheme of reservation for the North Arcot district.

With his letter disposed of in the Proceedings read above, the Collector of North

the Board that these proposals did not
make sufficient allowance for extension of

boundary of the Totakanama block were accordingly effected in view to meet the
requirements of the neighbouring villagers. The Collector was at the same time
requested to make similar exclusions in respect of the remaining reserves, so as to allow
ample provision for the adjoining villages. The Collector now submits a revised draft
notification for the Totakanama block, as amended by the Board, and reports that, in
the case of the other reserves, no revision of the boundary already proposed is neces-
sary, as all the villages enumerated in the Board's Proceedings quoted above are very
sufficient.

2. On the strength of the statistics now furnished by the Collector, the Board
resolves to accept the proposals and accordingly submits to Government the draft
notifications received with the letter read above for approval and publication in the
Fort St. George Gazette.
