Proceedings of the Board of Revenue

(Land Revenue),

Dated 6 April 1897,
No 1285. This:-

READ

Letter from C. M. Muthayazgar, Esquire,
Collector of Thiruvallur, dated 26
December 1896, R.C. no 982 of
96-97. and the following reference
thereon, dated 23rd January 1897:-

"The Collector is requested to
furnish information on the
following points:-
(1) how the land over which
prospecting operations are
proposed to be carried on
is classed in the revenue
accounts;

(2) what rate of royalty he proposes to levy in respect of the mineral.

From the marginally noted papers it will be seen that a royalty of five per cent ad valorem has been fixed for mica and phosphate nodules. If the collector sees no objection to the adoption of the same rate for statite, he is requested to report how the value of the mineral removed can be ascertained.

and (3). what quantity of the mineral may be allowed to be taken free for experimental purposes."

Read also letter from E. S. Chinn Esquire, Collector of Kurnool, dated 17 February 1897, R.C. no. 982998-97.

Resolution

4

The draft prospecting license received with the collector's letter first read above with, with a few amendments, noted in red ink, he submitted for the approval of Government.

2. The Board considers it sufficient to allow 1 ton of statite for experimental purposes.

3. As regards royalty, the Board recommends that it may be fixed at five per cent on the value f.o.b. in Madras i.e. selling price in London less freight, insurance and home charges; but the collection of the amount may be postponed until receipt of the sale account from London.

(True Copy and Encl)
