Note for orders
C. No. 3127

In this Proc the Board of Revenue directs the Collector of Amuktapur to exempt Bank bed lands, allowed to be cultivated free of assessment on account of the unfavorable character of the season, from the payment of the land and the village cess.

In G.O dy $\frac{336}{17-7-96}$ it was decided after full discussion that it was not possible to remit either the land cess or the village cess along with the assessment, the reason being in the case of the land cess that the remission cannot be legally granted and that in the case of the village cess that the remission will reduce the funds from which village officers are to be paid. The above objection to the remission of village cess does not apply to the case under consideration as Bank-bed lands are not ordinarily allowed to be

cultivated, and the possible ceas on such cultivation has not been taken into account in determining the assets of the village Service Fund.

in a year of famine

3. As regards land ceas it appears from the original of G.O $\frac{336}{17-7-96}$ that the objection to their remission was based on the absence of provision in Section 63 of Act V of 1884 to allow a partial remission of the ceas and on the inconvenience of having to notify details of fields exempted and of having to vary the notification every year. These objections do not apply to an occasional exemption like the present where the assessment is fully remitted and where there is no question of a partial exemption of ceas. But a formal notification under the Section is necessary and it is submitted that the Board should be asked to submit a draft
