BOARD OF REVENUE (LAND REVENUE), FOREST No. 524, 21st November 1896.

PROCEEDINGS OF THE BOARD OF REVENUE
(LAND REVENUE).

READ—the following letter from J. N. ATKINSON, Esq., Collector of Kistna, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Northern Circle), dated Masulipatam, 8th October 1896, No. 24-Forest Tour:—

I have the honour to forward herewith draft notification under section 4 for the reservation of Matsavaram block in the Palnad taluk, having an area of 1,120 acres.

2. The area was selected by the District Forest-officer in February last, and demarcated by the Assistant Surveyor in June 1896, according to his instructions; the block has not again been inspected by the District Forest-officer.

3. The forest growth is sandra (*Acacia Sandra*), and that being a useful wood, especially for ploughs and agricultural implements and also for cutch, it has been thought better to retain the northern portion, which has an appearance on the map of being somewhat straggling.

4. It forms one of six reserves which will be treated in the same working circle; the others are Pinnali, Govindapuram, Vemavaram, Rekulagadda and Tangeda with its extensions.

5. Sufficient land has been left out in the adjoining villages for communal requirements.

6. The statement of area and condition and the demarcation certificate are enclosed.

ENCLOSURE No. 1.

Certificate.

Certified that Matsavaram block in Palnad taluk, Kistna district, was selected after a personal inspection by Mr. A. W. Lushington, District Forest-officer, in February last, boundaries perambulated by him, and preliminarily demarcated by Assistant Surveyor according to District Forest-officer's instructions in June 1896; and that the block was not inspected by the District Forest-officer nor was the demarcation checked by him.

Endorsement by A. W. PEET, Esq., Conservator of Forests, Northern Circle,
dated Anantapur, 16th October 1896, R. C. No. 767.

Forwarded.

READ—again the following letter from J. N. ATKINSON, Esq., Collector of Kistna, to
the Secretary to the Commissioners of Land Revenue (through the Conservator
of Forests, Northern Circle), dated Masulipatam, 19th October 1896, No. 14-
Forest Tour:—

I have the honour to forward herewith draft notification under section 4 for
Vemavaram block, amounting to 1,980 acres.

2. It was originally selected by Ranger P. Ananda Rao, but was modified by the
District Forest-officer on his inspections and perambulation in September 1894 and
last January. It was demarcated under his instructions by the Assistant Surveyor
S. Lakshmanachari in June last.

3. It contains dense sandra (*Acacia Sandra*) and will be treated in the Akurazu-
palli working circle with Govindapuram, Matsavaram, Pinnali, Rekulagadda and
Tangeda reserves. Owing to the density of the sandra, it has been considered better
to retain the ends, which appear straggling on the map in the north-east and south-
west corners and eastern side, as otherwise it would reduce the area by 260 acres.

4. After deducting the areas of this reserve and of Govindapuram and Rekula-
gadda reserves from the area of waste land in Vemavaram, Tadutla and Akurazupalli,
a balance of 6,000 odd acres remains for agricultural requirements, which is ample.

5. The statement of area and condition and demarcation certificate are herewith
submitted.

ENCLOSURE No. 1.

Certified that Vemavaram reserve block in Palnad taluk, Kistna district, was selected
after a personal inspection by Ranger P. Ananda Rao, but was modified by the District Forest-
officer on his inspection and perambulation in September 1894 and January 1896, and preliminarily

RESOLUTION—Forest No. 524, dated 21st November 1896.

The draft notifications under section 4 received with the letters read above will
be submitted to Government for approval and publication in the *Fort St. George*
Gazette.

2. The proposed Matsavaram and Vemavaram blocks with the Pinnali reserve
are included in the Pinnali Parcelle and are proposed to be treated with three others
in the same working circle.

3. The area of reserves already notified under section 16 including that of
the Pasvemula extensions I and III recently notified in Government Order, No. 504,
dated 1st October 1896, comes to 153,845-60 acres and not to 160,825 and 161,319
acres, respectively, as given in the area statements now submitted.

4. It is observed that the south boundary of the Matsavaram block terminates at
a point on the eastern and not the western boundary of Timmalacheruvu as given in
the draft notification. The necessary correction has been made in this office.

5. The straggling portions of the two reserves are proposed to be retained owing
to the dense growth of the sandra (*Acacia Sandra*) which is especially useful for ploughs
and agricultural implements.

6. The second of the letters read above though addressed through the Conser-
vator does not appear to have been submitted through that officer.

7. It is noted that sufficient lands have been left out for extension of cultivation
and other requirements of the villagers.
