READ...

The following letter from
the Collector of Madras dated
30 April 1897 R on C No 1210 of 97.

The ryots of Kallanai village
Madura Taluk have represented
that dry lands to the extent
of 55 acres in the water-
spread of their tank which
are ordinarily submerged for
only a short period, were
in the present fasti submerged
for so long a period owing
to the storage of Periyar water

water in the tank, that cultivation was impossible. They have applied for remission of assessment on the lands and the Tahsildar reports that their allegations are true. The tank is proposed to be abandoned by the Public Works Department.

2. As remissions for dry lands cannot be granted, I have the honor to request that the Board will be pleased to authorize the jamabandy officers to grant such remissions in all cases in which lands have been rendered unfit for cultivation owing to the prolonged submersion due to supply of Periyar water.

Resolution

The Collector's recommendation in para 2 of his letter read above is approved.
