Famine-relief Works.—Reviewing the programme of — for 1897-98 submitted by the Collector of Tanjore.

169-12-6-97

PROCEEDINGS OF THE BOARD OF REVENUE
(REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

READ—the following letter from J. ANDREW, Esq., Acting Collector of Tanjore, to the Secretary to the Commissioner of Revenue Settlement, Land Records and Agriculture, dated 8th April 1897, No. 1665-Rev. :—

I have the honour to submit the programme of famine relief-works for 1897-98 as required in B.P., dated 7th June 1892, No. 411.

2. The programme is prepared for the non-deltaic portion of the Tanjore taluk and for the Pattukkóttai taluk (*vide* B.P., dated 21st October 1892, No. 691, R.S.), and provides for works in the Tanjore taluk to the amount of Rs. 2,60,637 sufficient to give employment to 24.6 per cent. of the population of the part of the taluk concerned for three months at $1\frac{1}{2}$ annas per head per diem and in the Pattukkóttai taluk for Rs. 7,77,160 sufficient to give employment to 33.2 per cent. of the population of that taluk.

3. In its Proceedings, dated 2nd November 1896, Mis. No. 5407, R.S., the Board directed that the propriety of including the marginally noted four works in the current year's programme be reconsidered. Concurring with the Chief Engineer for Irrigation in the opinion expressed in the correspondence embodied in the above, I have omitted works Nos. 1 and 2 from the list of works for the Tanjore taluk and this accounts chiefly for the decrease in the percentage of population for whom provision has been made as compared with that for whom provision was made for 1896-97. Works Nos. 3 and 4 are retained as being necessary.

4. Of the 136 irrigation works out of repair in the Tanjore taluk, provision is made for the repair of 120, the remaining 16 works having to be executed under kudimaramat. Of the 155 irrigation works out of repair in the Pattukkóttai taluk, provision is made for the repair of 140 works. No provision is made for the repair of the remaining 15 works, the reason assigned by the Executive Engineer being that their investigation has not yet been completed to enable him to make even an approximate estimate of their cost. No provision is made for well-sinking in the Pattukkóttai taluk for reasons given in paragraph 3 of this office letter, No. 681, dated 1st April 1895; disposed of in B.P., dated 6th May 1895, No. 115.

5. No forest fencing is proposed for reasons stated in paragraph 5 of this office letter No. 203, dated 3rd April 1893.

6. The details of the provision made in the programme are given below :—

Works.	Amount in lakhs of Rs.
Construction of 17 new irrigation works	4.25
Repairs to 260 old irrigation works	46
Construction and metalling of roads (257 miles)	4.43
Repairs to old roads (15 works)	29
Construction of works for the improvements of drinking water-supply (45 works)	15
Construction of other miscellaneous works (8) including sinking of wells with the aid of State loans	74
Total	19.37

This is sufficient to provide employment for 33.6 per cent. of the total population.

7. Estimates are reported to be ready for Rs. 4,93,426 or 47 per cent. of the total provision. With reference to the instructions in B.P., dated 6th May 1895, No. 115, R.S., I have requested the Public Works Department and Local Fund Engineering officers concerned to bring many more works on the sanctioned list at an early date.

RESOLUTION—dated 22nd May 1897, No. 392.

The programme of famine relief-works received from the Collector of Tanjore for the year 1897-98 will be submitted for the information of Government.

2. The programme deals with the non-deltaic taluks of the district and the general character thereof having been carefully summarised by the Collector, the Board has nothing to add thereto besides the following few remarks.

3. The proportion of the sanctioned to unsanctioned works appears to be 1 to 11 and hardly any improvement has been made towards bringing more works on the sanctioned list in spite of the Board's repeated remarks.

4. The total amount provided for works for which estimates are stated to be ready should be shown as Rs. 5,22,426 or 49 per cent. of the total provision for the district instead of Rs. 4,93,426 or 47 per cent., the Collector having omitted Rs. 29,000 as detailed in the margin in the abstract statement C as well as in statement A though they appeared under the head "amount of detailed estimates" in the programme for the previous year. The necessary additions and corrections

have been made in the statements and the Collector is requested to note them in his office copy.

5. The Collector should explain why the estimates which were reported to be ready during the past year in the cases of Irrigation new works entered in the programme for Pattukkóttai taluk against "not sanctioned" works, have not yet been brought to the sanctioned list.

6. In the case of item 2 of III Road Works, (6) New Roads, in Pattukkóttai taluk a provision for Rs. 45,000 is made for metalling a road from Pattukkóttai to Tanjore (14 miles) in the current programme, whereas in the previous programme it is shown against a road called Pattukkóttai-Oratnad (14 miles). Again in the previous programme provision for Rs. 17,000 was made for metalling a road from "Arantangi to Ayankudi" on road No. 19 (19 miles). This has been omitted from the programme for the current year. Explanation for these discrepancies should be furnished.

7. Estimates for none of the large road works in Pattukkóttai taluk appear to be ready. The Collector should take steps to have these prepared at an early date.

(True Copy and Extract.)

Famine Secretary.

To the Secretary to Government, Revenue Department,
with B.P., dated 2nd November 1896, Mis. No. 5407.
Collector of Tanjore.

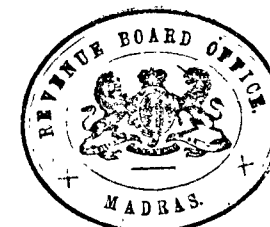

APPENDIX.

Form C.—Abstract statement of programme of famine relief-works in the Tanjore district for the year 1897-98.

Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture.)

Dated 2nd November 1896.

No. 5407 Mis.

READ The following letter from the Executive Engineer, Tanjore Division, to the Superintending Engineer, I Circle, dated 9th September 1896, No. 3822:-

With reference to para 3 of Resolution No. 119 dated 4th June 1896, forwarded with your No. 224 I.J. dated 20th July 1896, I have the honor to state as follows:-

1. No. 1. The estimate for this has not been prepared. It is a project which requires special investigation and it is doubtful if the Wyacoundan can spare the water. The work was entered in the Famine list at the request of the Collector. In my opinion it should be removed.

2. No. 2. In times of low-peaks, the head at the Grand Anicut would certainly improve the supply to some 5,000 acres of land. I do not think the work could be done for under 2 lakhs - the outdoor work is ~~nearly~~ nearly finished. The work can hardly be considered as necessary, as the lands to be irrigated have already their supply channels with heads below the Grand Anicut.

3. No. 3 and 4 are really repairs and not new works. An estimate is under preparation to repair No. 3 in the ordinary course. No. 4 is not so urgent and its repair will be put in hand also in the ordinary course on the estimate being ready.

Endorsement thereon from Superintending Engineer I Circle, Dated 24th September 1896 No: 234 Z.I. :-

Copy to the Chief Engineer for Irrigation
in accordance to his Endorsement No:
Dated 11th July 1896.

Read also the following Endorsement thereon from the Chief Engineer for Irrigation, Dated 5th October 1896 No: 447 In:-

Copy forwarded to the Secretary to the Board of Revenue, Settlement, Land Records and Agriculture, for information, with reference to para 3 of Proceedings of the Board of Revenue

So. 2586 No. 119 Dated 4th June 1896.

1.7.96 2. The undersigned concurs in the Executive Engineer's opinion.

1241 P. J. Wilson
Jr. Chief Engineer for Irrigation

Resolution

Forwarded to The Collector of Tanjore, who will reconsider the propriety of including the works in his Famine Relief Works Programme for 1897-98).
