Proceedings of the Board of Revenue
 (Land Revenue)
 Forest NO 43 Hls, dated 13th May 1897

Read again Board's Proceedings Forest NO 343 Hls, dated
 13th March 1897, considering that it is unnecessary to supply copies
 of "the Ready Reckoner" or of "the Hoppus Timber measurer" recommend-
 ed by Mr. Hooper, and requesting him to report in what respect "Bombay
 Specifications" is more useful to Forest Officers than the Standard
 specifications in the Madras Presidency.

Read letter from the Conservator of Forests, Southern -
 Circle, dated 15th April 1897, Ref. on. Cur. NO 1368, requesting early
 sanction for the purchase of 5 copies of Hoppus measurer.

Resolution.

Submitted to Government.

2 In his letter disposed of in the Board's Proceedings read
 again above, the Conservator of Forests, Southern Circle, requested

Ready Reckoner of Timber
 measurements by a mangesh
 Rangappa
 (2) Hoppus' Timber measurer
 (3) Specifications compiled
 for the use of the P.W Dept,
 in the Bombay Presidency.

the supply of copies of the marginal-
 ly noted books for distribution
 to Forest Officers in his Circle. The
 Board considered the supply of the
 Ready Reckoner to be unnecessary, as
 the information contained in it was
 given in the Rai Hunhya Lal's "useful
 Rules and Tables" Copies of which

supplied to Forest Officers under G.O. dated 3-9-92, Hls. NO 4001
 Revenue. In regard to the Hoppus' Timber measurer and the Bombay
 Specifications, the Conservator was requested to state whether they
 contained any useful information not already given in the Rai -
 Hunhya Lal's work and the "Standard Specification" in the Madras
 Presidency" respectively, copies of the last named book having -
 already been supplied to all Forest Officers down to Range
 Officers (vide correspondence ending with G.O. Hls. NO 1505 Rev, d/
 21st April 1896).

5 Mr Hooper now reports that copies of the Hoppus' measurer

were indented for merely to replace those lost or worn out and that only five copies of the book are required. It is said that copies of the book can be had from Messrs. Thacker & Co. Calcutta at Rs. 2/- per copy. As regards the Bombay Specifications, Mr. Hooper - states that the book contains a mass of useful information not contained in the Madras work. The Board has also compared the two books and is of opinion that the Bombay book is certainly more complete. Though the Madras work contains enough information for ordinary use, still there may be occasions on which the larger work will be found more useful for reference. The Board therefore recommends that sanction may be accorded for the purchase of five copies of the Hoopus' measurer and that the Bombay Government may be moved to supply 23 copies of the "Specifications" for distribution as noted in the margin.
