It is certainly certain that the measures which have been taken are not recorded.			15/6/97

As to districts to free and the people are wanted a can be to work. If some people are driven off the work by making the conditions of relief a little harder it will do no harm at present and they can come on again if necessary. It is submitted that a reply should be sent to warn these officers that the measure will.

14/6/97

I agree that measures should be taken to concentrate labour as much as possible. Many can this with some of the good policy.

15/6/97

The D. A. G. might think and feel that first hope and that the services of the officers he mentions will not be needed. But, that if they should be, first will again.

Address the D. A. G.

The question of concentrating labour was dealt with in a G.O. passed in Council 4.1.97.

ORDER No. 322 dated 12th May 1897.

The Chief Engineer has reported that the supply of Assistant Engineers and Upper Subordinates that can be made available for supervision of relief works is rapidly running short and has suggested that arrangements should be made to secure the services of Sappers and Miners for the purpose. Enquiries will be made in the Public Department as to whether His Excellency the Lieutenant General Commanding the Madras Forces will be able to spare the services of any sappers and miners for famine duty.
