DISTRICT REPORTS.

GANJAM.

No water-supply generally for agricultural operations and getting scarce in several places for drinking. Greengram and ragi being sown in a few places. Sugarcane and redgram in fair condition in places. Paddy harvest mostly completed; outturn bad, except under channels and largest tanks, where it is fair to average. Pasture scarce; fodder sufficient. Cattle generally good. Prospects unchanged. Markets moderately supplied. Employment still procurable in places owing to paddy harvest. 120 cwts. of rice exported by sea to Madras and Bombay. Exports and imports of food-grains by train 2,015 and 655 maunds, respectively; exports mainly from Parlakimedi. 874 free emigrants including children to ports in British Burma in week ending 1st instant. No relief works nor kitchens open. Test works in December failed to attract at famine wages; careful inquiries show that coolies are not yet ready to accept famine wages. Necessity for relief works and gratuitous expected to arise in February. Condition of people still generally good, though a few isolated instances of emaciation are coming to notice. Cattle are still in good condition, but pasture is getting very scarce.

VIZAGAPATAM.

No water for cultivation, except a little by baling from wells. Ragi, chillies and indigo sown and ragi transplanted in parts. No wet crops now standing except sugarcane under wells; dry crops withered in southern taluks, bad elsewhere. Horsegram, cholam, paddy, ragi, redgram, greengram

MALABAR.

Standing crops in good condition generally. Harvest progressing in three taluks; outturn fair. Rice sufficient and fodder available. Health of cattle generally good.

SOUTH CANARA.

Water-supply insufficient in parts. Watering second rice crop and cultivation of gingelly going on in parts. Standing crops generally in good condition, but suffering in parts from want of rain. Pasturage and fodder generally sufficient. Cattle generally good.

TRAVANCORE.

Water-supply sufficient. Pasturage normal. Condition of cattle good.

SEASON TELEGRAM TO THE GOVERNMENT OF INDIA, REVENUE AND AGRICULTURAL DEPARTMENT, CALCUTTA.

Week ending January 2nd. No rain West Coast, Circars and Deccan, except a few trivial showers eastern part Cuddapah; showers parts Carnatic, North Arcot and Trichinopoly, but no rain remainder Central districts; considerable falls Southern districts. Scarcely any rain has fallen during December in Deccan districts to supplement late rainfall of November and none in affected portion of Circars. *Water-supplies* in Southern and Carnatic and most parts Central districts ample, and also under Godavari and Kistna works and Kurnool-Cuddapah canal; otherwise scanty or bad, except in wells which scarce in affected tracts. *Sowings* still continue in southern half of Presidency and to small extent under irrigation elsewhere. Standing crops withering or lost many parts Circars and Deccan and in latter crops sown with November rainfall unlikely to mature. Harvest of early crops progressing with poor outturn Circars and Deccan, fair elsewhere. Pasturage very scanty ~~latter districts~~ but ample elsewhere; fodder-supplies generally low and in parts Deccan cattle already suffering though elsewhere condition good. *Price* of rice easier almost throughout, and prices of staple dry grains on which people chiefly depend slightly cheaper generally except in Deccan districts and Vizagapatam and Ganjam; cholam, Kurnool 15, Bellary and Anantapur 14½ and Cuddapah 14 seers. Food-supplies of Presidency believed to be adequate for requirements and large stocks held, especially by ryots in affected districts, but trade appears inactive owing chiefly to uncertainty of outlook in other parts of India. *Relief works:* Kurnool five, workers 3,538; Bellary twelve, workers 13,462; Anantapur one, workers 334; Cuddapah three, workers 2,209; total relief workers 19,543; decrease due temporary field work and organisation weavers' relief. Kitchens: Kurnool three, inmates 88; Bellary ten, inmates 947; Anantapur one, inmates 26; Cuddapah three, inmates 109. No poor-houses and no other gratuitous relief, but 852 weavers Bellary and 4,765 Cuddapah; total 5,617 relieved at their handicraft. Test works opened during December Ganjam ~~failed to attract labourers~~. ~~Test works being~~ opened ~~this week~~ in Vizagapatam. Works so far opened in affected districts not fully adequate owing to excessive distance some workers had to travel; more being opened and more kitchens being supplied for relief infirm dependants and young children. People on works in affected districts are generally in fair condition, but in Bellary some appear to suffer from habitual underfeeding. This being inquired into by Sanitary Commissioner. Bulk of relief workers are low caste labourers, but in several places weaver communities hard-pressed owing to failure of demand from Northern and Central India for their wares; for these special relief at their craft being organised. Remaining classes in affected tracts are in good condition, and wherever possible efforts are being made to encourage ryots to take land improvement loans so that they may continue to employ regular labourers and professional well-sinkers.

Government of India.

Department of Revenue and Agriculture.

POST COPY OF SERVICE MESSAGE.

(Famine.)

Calcutta, the 2nd January 1897.

From
Calcutta,

From
Revenue.

To
Madras,

To
The Secretary to Government Madras.

Secretary of State wires, begins- I propose presenting when Parliament re-assembles your famine telegrams and reports from local Governments showing situation and arrangements for the relief of distress. Please telegraph 10th January next latest information regarding condition people, adequacy arrangements for the relief of distress and sufficiency food supplies each province where famine exists.- Ends. Please include in this weeks crop telegram number of relief works, of test works and of poorhouses and kitchens respectively open in each district in which any Government relief is given. Also numbers on works and numbers receiving gratuitous relief in each such district. Also districts in which works have been opened and closed again from absence of demand for employment. Also general report on adequacy of arrangements for relief, on condition of people of affected tracts and of people on works, and as to adequacy of food supplies. Classes mainly receiving relief should be specified if possible, whether low castes, labourers, cultivators or what. Information should be complete. If any particulars not received in time supplementary telegrams may be sent up to evening of ninth at latest.

Registrar.
