READ

the following letter from the collector
of Cuddapah, dated 8th June 1897,
No. 752 of 97:—

*
Inspection notes of
the Famine Commissioner
on his inspection of
the Bollavaram
relief work in
Proddatur taluk.

With reference to the Proceedings
of the Famine Commissioner dated
7th June 1897 without number, I have
the honor to state that, under section
107 of the Famine Code, it is only such
tasks as have been approved by me
that can be enforced on works in this
district; and I therefore think that if
the Famine Commissioner considered
it necessary to raise the task he ought
to have consulted me regarding the
circumstances under which my task
was fixed. When the Superintending
Engineer ordered the task to be raised

in

in March last, I objected and allowed my own task to stand. I make this reference as I am the only officer under the Code authorized to approve tasks and am held responsible for the proper administration of relief in the District. It is owing to the moderate nature of the tasks that have been enforced that the coolies on Famine works have retained their strength through our terrible hot weather. The hot weather is practically over now but I had not intended to raise tasks until the monsoon had actually declared itself.

Resolution

Recorded.

2. The collector seems to forget that he is subordinate to the Famine Commissioner, Vide Sec. 3 of the Famine Code.
3. There were special reasons for the modification ordered, viz., that some of the coolies were practically not working at all, leaving the work even as early as 10 A.M. and this without the excuse of coming from a great distance. The Famine Commissioner's powers of control under Government are unlimited.
